CITY COUNCIL VOTES FOR BIG PAVING PROGRAM

Our Town

The Houston Post of Sunday carried a report from Rockdale on the Minerva oil field giving the total number of barrels produced for the week ending August 25 at 3,450. Hardly anybody acquainted with the production of the field will believe this figure correct. We are willing to allow for a typographical error but in view of unscrupulous publicity policy of certain correspondents we are acquainting the people of the county with the facts. The production of the field is around 700 barrels a day, varying more or less. Another instance of publicity methods used by this correspondent was shown several days ago when the Fort Worth Star Telegram printed a story with a heading: "Rockdale Young Men Bitten by Mad Dog." The young men referred to were Harleigh McGregor and Mr. Eanes of Cameron. The story read as though they actually lived in Rockdale and "were bitten by a dog owned by Homer McLane of Cameron." It is surprising that the daily newspapers of Texas cannot check up on this sort of over zealous and overworked publicity stunt. The item had already appeared in the press under a Cameron date line.

For a long time "Our Town" editor has been calling the attention of the public to the civic neglect about the Yoe High school building and finally a disc plow was put on the campus and the ground plowed up. So far so good. It was a good job of plowing and none will dipute but the campus is not a farm. In the past it has been a weed patch. If we can't give this building the advantages of landscaping let's raise some corn and cotton on the campus and maybe a little cane too. What's the use of so much ground being devoted to weeds? Let's carry on the good work of civic improvement even though it began with the lowly plow. Take off those unsightly poles around the tennis court and fill up the excavation made for the court and restore the campus to its normal appearance—all except the weeds and cans.

Paving with rock asphalt 50 blocks in the business section of Cameron at a total cost of $60,000 or thereabout with one half to be paid by the property owners and one half by the city would require a municipal expenditure of only about $30,000 necessitating an increase of not over five cents in the tax rate is about the best possible porposition we can see for better streets. The action of the city council in voting this expenditure, if matched by the property owners, marks another milestone in the progress of the city. The paving is also to be extended into the residence sections and as quickly as the property owners subscribe for their share of the work. No assessments—no levies—no arbitrary policies—just a co-operative porposition with the city working as fast as the people desire. Line up your street.

Local industry profits only as the people protect it against outside business that pays no taxes nor builds the community. Folks who buy out of town are tearing down local industry and are not building up the town. Take away local industry and you have nothing left. Ooutside concerns are entitled to no consideration when any local merchant can sell the same goods even though at a slightly increased price.

Soon bleak days will come and with them the discomforts of poorly heated school rooms. Little children leaving warm and comfortable homes for their studies will suffer when the bitter weather comes. Borrowing the apt slogan of one of the Herald's good advertisers we say: "Can we afford to Wait?"

EFFORT TO ORGANIZE LION CLUB MAY FAIL

FIND INSUFFICIENT INTEREST TO SIGN NECESSARY MEMBERSHIP.

Efforts to organize a Lions Club in Cameron it is believed have failed at this time. Following a luncheon held in the Newport Cafe Monday Mr. Vilas Johnson, representing the Lions organization could not get a sufficient number of signatures to begin the organization.

Sixteen men were at the luncheon and the plans for the club were discussed. Mr. Johnson believes at some future date the club may be organized here.

CATFISH LIVE IN CRACKS OF GROUND DURING THE DROUTH.

Oscar Offield of Sharp was in town Monday and told the following story of the strange existence of catfish in a tank near his home that had been dry for several months:

After the rain Monday he went to see if water had run into the tank. While walking across a portion of the bottom he saw a number of cat fish coming up trough the craks to get to the water in the tank. It is supposed the fish went down to an underground stream during the dry weather.

GRAND JURY SWORN IN AND BEGINS ITS WORK

HEAVY CRIMINAL DOCKET FOR SEPTEMBER TERM OF DISTRICT COURT.

Tuesday morning Judge John Watson in the District Court swore in members of the grand jury for the September term of court and immediately the jurors retired to the jury room and began their work.

H. L. Atkinson, farmer of Mays field is foreman of the Grand Jury and the remaining members are: J. W. Coleman, B. F. Stidham, W. S. Lamkin, Walter White, Pete Keen, A. W. Willis, Graham Looney, H. E. Fuchs, Oscar Boeker, T. F. Hardy, H. G. Sanders.

Judge Watson in delivering the charge to the jury instructed them along general lines, there being no particular law violations to be investigated.

This is the third grand jury session this year. This grand jury will be called upon to make investigation into a number of murder cases since the last grand jury session.

The September term of district court which proceeds up to November 2 will be taken up altogether with criminal cases. The docket will be arranged next Monday when the cases will be set. It is likely that the grand jury will complete its work in time for bills to be returned and cases set for this term by Monday.

The riding bailiffs are: Beat 1, Chas. Sens; Beat 2, R. H. Jones; Beat 3, Frank Boggan; Beat 4, John Fleming; Beat 5, George Gambill; Beat 6, Ben Maudlin; Beat 7, John McAtee; Beat 8, John James, Door Bailiff Andrew McLane.

The court convened Monday morning and the civil docket was set, the cases to be tried are as follows:

San Antonio Brewing Association vs. W. F. Young et al, October 1.

John Mocha vs. Peter Ermis, November 6.

C. W. Baggett vs. London Insurance Co., November 5.

Cameron Compress Co., vs. Hartford Steam Boiler Co., November 26.

Buckholts State Bank vs. J. D. Fikes, November 19.

CAMERON SCHOOLS OPEN MONDAY, SEPTEMBER 10

STUDENTS FROM OTHER SCHOOLS MAY ENROLL SATURDAY.

The Cameron school will open Monday morning, September 10 at 9 o'clock.

Students who are entering the Cameron schools from other schools may, if they desire, register on Saturday September 8, from 9 to 12 and form 2 to 4.

Pupils who wish to enter high school will report to principal Joe B. Preston at his office on the ground floor of the Yoe High school building. Those who wish to enter the grammar school will report to Principal Guy T. Newton at his office in the grammar school building.

Saturday registration is only for transfers from other schools who are entering the Cameron schools for the first time. Such students are requested to bring a complete statement of work done in other schools.

T. A. FISHER.
Superintendent.

$1000.00 WORTH OF WALKER HOUNDS SOLD

DISTRICT CLERK PENN WOLF DISPOSES OF FIVE OF HIS WALKER HOUNDS.

This week dog fanciers have visted the kennels of Penn Wolf, district clerk and purchased five of his famous Walker hounds.

Mr. Wolf has more requests than he can fill for his famous dogs and all of them sold so far have commanded big prices. An inveterate hunter and sportsman, Mr. Wolf trains his dogs and they have become famous all over America. Recently "The Chase" and "Red Ranger" national publication for dog breeders recently published front cover pictures of dogs by Mr. Wolf, both being photographs of White Stride famous pack leader of the Wofl kennels.

The dogs sold this week were taken by sportsmen from Austin. Joe White and White Stride cannot be purchased, although the men begged Mr. Wolf to place a price on them. The five dogs sold by Mr. Wolf brought a total of $1000 believed to be the highest price ever paid for a string of dogs in this county.

STAMP TO BE ISSUED AS MEMORIAL TO HARDING.

Exclusive photograph of the profile likeness of the late President Harding which will appear on the new Harding 2-cent postage stamp which will be offered for sale for the first time in Marion, Ohio, on September 2. The stamp is being issued as a memorial to the late President, the idea originating with Postmaster General New, a close friend to Mr. Harding. It will be printed in black with the numerals 1865 and 1923, the dates of the birth and death of the late President. The first issue will be 300,000 and the stamp will supersede the regular 2-cent stamp for 60 days.

Baptist Minister and National Klan Lecturer Believed Foully Murdered

San Antonio, Texas, Sept. 5.—Following the finding 10 days ago of hand luggage belonging to the Rev. J. T. Renfro, pastor of the First Baptist church at Sinton, Texas on the banks of the San Antonio River here, a statewide search is being instituted for the minister under the belief that he has met with foul play.

Doctor Renfro, who was a national lecteurer for the Ku Klux Klan and in that capacity is believed to have made many enemies, is thought by his relatives and friends to have been spirited away here or foully dealt with. The first general alarm was spread when Sheriff Hunt of San Patricio county, who arrived in San Antonio today, together with E. E. Renfro of Corpus Christi, a brother of the missing minister, asked the city detectives to assist in searching for him.

Renfro, as director general of the Fred Roberts Memorial Hospital, which is to be erected in Corpus Christi, had traveled over much of Southwest Texas collecting funds, and at times handled large sums of money.

Renfro disappeared from this city while here for a short rest on Aug. 22. No fear was felt for him until he failed to keep an engagement for a lecture.

(continued on page 8)

MANY THOUSANDS SEE ROCKDALE KLAN PARADE

What is believed to have been the largest crowd in the history of the town Thursday night saw the Ku Klux Klan parade in Rockdale.

Estimates place the throng at from ten to twelve thousand people.

When the parade came only about 200 Klansmen were in robes for the parade due to the fact that not sufficient uniforms were had to accomodate all. Comment on the side lines place the estimate of Klansmen in attendance at between three and four thousand, mostly from Milam county.

Crowds began to gather before nightfall and at eight o'clock people were everywhere, lining the streets, on the roofs of buildings and overflowing into the streets.

A corps of mounted deputies rode hastily up and down the streets to keep the crowds in place. There was no disturabance anywhere. Only cheers and applause greeted the Klansmen as they filed silently out of the darkness into the lighted street.

The Klansmen taking part in the parade gathered east of the International and Gerat Northern Depot to form the line. Owing to the late arrival of the speaker from Austin the parade did not get under way until about nine o'clock.

The parade which was the first of four events in the mammoth demonstration was formed in single file. At the head of the procession were eight horsemen in white, one of them carrying the American flag. To the right of the procession and just in advance of the leader rode Sheriff Drue S. Rogers and to his left in a like position rode Deputy Sheriff N. O. Kennedy. Back of them in single file rode the mounted deputies.

The procession bove in sight from a dark street rounding into main street at the municipal building and proceeded north. Following immediately behind the eight white robed horsemen and the American flag was a motor truck bearing a hugh firey cross. Next came a motor car with a small cross mounted on the radiator. Then came the Klansmen in robes, some of them without helmets and were recognized by many on the side lines.

The parade went north to the Methodist church an main street and then came down the street to the public fountain where the motor truck stopped and the Klansmen gathered for the speaking.

Representative O. D. Baker was assisted to the truck and introduced the speaker as a prominent Klansman from Austin. He told the crowds the principles and practices of the klan and he was cheered throughout ris address. Foreign immigration was opposed and all things un-American.

From the speaking the Klansmen and their families went to the fair grounds where initiation ceremonies were held. A hugh firey cross shedding its light over several acres of ground was matched by a number of torch fires blazing in the darkness. The Klansmen formed a square around the cross and a large class of men were taken into the Klan. Twenty of the candidates taking the work were from Cameron.

It was midnight before barbecue was served under the large shed used for exhibit purposes. The feast was unsurpassed and all were served. A minister invoked blessings and the people were served cafeteria style. Hot coffee and ice water were served besides barbecue.

The gathering did not break until about one o'clock. Thousands of automobiles lined the roads for miles.

ECLIPSE OF THE SUN TO BE OBSERVED MONDAY

CAMERON FOLKS SMOKE UP GLASS AND PEEK FOR STRANGE PHENOMENA.

If clouds do not obscure the face of the sun on next Monday Cameron folks can get out with their lamp smoked glass and see the eclipse that is now agitating to world of astrology.

Wild rumors were current in Cameron this week to the effect that many were quitting Mexico believing the end of time is coming. However much we may boast of our non-superstitious natures there is something akin to fear in all of us when the sun gets dark so brace up and get out your glasses next Monday and observe the eclipse.

"Rare opportunity to observe and study the total eclipse of the sun will be afforded to persons in Southern California and to those in North-Central Mexico next Monday," Prof. J. D. Boon of Southern Methodist University said in a radio talk for Station WFAA of The Dallas News and The Dallas Journal Monday at 12:30 o'clock. Prof. Boon of the chair of astronomy, department of physics, in the university, is to leave Wednesday for California to be one of the observers near San Diego. "Eclipses of the sun are not unusual, but total eclipses of the sun are visible in limited areas of the earth's surface and no one place has opportunity more than once or twice in a lifetime to see totality. The eclipse is caused by the passing of the moon between the earth and the sun and because of the small size of the moon and its distance from the earth, its shadow upon the earth is not large. The path totality next Monday will be about 105 miles wide, while the shadows of partiality will be seen for as much of 2,000 miles each way form totality, where clouds do not interfere.

"The shadow of totality will last about three hours, but in any one place in its path, totality will last from three to three and a half minutes. Visibility will begin when the sun rise is seen in the North Pacific Onean and will last until the sunset is seen in the Caribbean Sea, for the shadow passes eatsward, while moon and sun proceed westward. At Dallas, there will be about 75 per cent totality, at about 2.30 o'clock in the afternoon.

"Once a thing of fearsome portent, the eclipse is now an occasion for tion, a rare occasion fo rapplying skill to the study of phenomena. Earth life depends upon light and heat from the sun, and the time of eclipse affords wonderful opportunity for observing corona, streamers and other manifestations of heat and electricity. Such study interests and concerns the whole world."

REV. R. C. WHITE QUITS AS BAPTIST PASTOR

GOES TO CLAYTON NORTH CAROLINA TO BECOME PASTOR OF CHURCH.

Rev. R. C. White, paster of the Baptist church in Cameron, has resigned and will leave here on Sept. 9 for North Carolina where he has accepted the pastorate of the Baptist church in the city of Clayton.

The resignation of Rev. White came at the end of the Sunday morning service after three additions had been made to the church. Wm. Henderson read the resignation which presented in the form of a letter to the church outlining the work of the church during the more than two years he has been paster.

The church voted to accept the resignation of Rev. White at his request and on next Sunday he will preach his last sermon as pastor of the church.

The church as yet has made no effort to call another minister and will not do so until Rev. White has left for his new home.

Rev. White is a young man of 27 years and a member of a family of several boys all of whom are Baptist ministers. His father also is a minister and is located in Florida and now touring Europe.

The resignation of Rev. White is universally regretted by the church and the citizens of the town.

NINE DOGS KILLED BY SHERIFF ROGERS.

Wednesday morning Sheriff Rogers in response to requests that stray dogs be slain went to the section of town near the hospital and killed nine. It was reported that mad dogs had been seen near there and all stray dogs were killed by the sheriff.

PROGRAM OF 50 BLOCKS OR MORE IS AGREED ON

WILL LAY AS MUCH AS PROPERTY OWNERS SUBSCRIBE IN CAMERON.

Voting to match the property owners of Cameron the City Council at its meeting Tuesday night voted to carry out an extensive campaign of paving using the Uvalde Rock Asphalt one inch surface the same as the sample block just completed by the Miller Surfacing Company of Houston.

After consulting with engineers the city has concluded that the gravel base is the best possible foundation for the Asphalt and will lay the material cold on the advice of the Uvalde Rock Asphalt Company.

The street paving program for the present will embrace the business district and will be extended into the residence section as fast as property owners sign up for the paving.

The paving will be constructed at a cost of about $1200 a block and of this amount the city will pay about half. A petition has been authorized and the city attorney will draw up the papers ready for circulation. The city will in all probability finance its part of the paving program by issue of warrants and no bond election will be necessary.

Indications are that the property owners desire paving and when the petitions have been circulated the city then will know the extent of the program to be undertaken. As the matter now stands the city has placed itself on record for paving and will be guided by what the porperty owners subscribe. In this way the assessment plan will not be necessary. It is generally conceeded that fifty blocks will be authorized when the committees have concluded with the petitions.

This paving can be laid in a fifty block program at $1200 per block including the intersection and the total cost will be $60,000. Of this amount the city will pay one half and an increase in the tax rate will be necessary only to the extent of five or ten cents.

LIGHTNING KILLS MAN ON FARM AT YARRELTON

FAYETTE RICHARDS STRUCK DOWN NEAR BRIDE IN COTTON FIELD.

Fayette Richards, 27 years old, farmer living near Yarrellton was instantly killed Monday afternoon during a storm eight miles west of Cameron.

He was married on Saturday and with him at the time of his death was his bride of three days. It is said that both were standing holding a cotton sack into which cotton was being placed when the bolt struck him killing him instantly. The funeral was held there Tuesday.

Mr. Richards was well known here, having been star state witness in a case in criminal district court in the case of Lazrus Carey negro rooming house proprietor, charged by indictment with selling liquor, and having testified at the trial here assisting the officers in breaking up illicit traffic in liquor.

His friends here and the Herald extends its sympathy to the bereaved relatives.

NEW DIRECTOR CHOSEN FOR MUNICIPAL BAND

O. W. SCOTT OF WACO TO REPORT HERE OCTOBER 15 FOR DUTY.

O. W. Scott of Waco, assistant director of Baylor University Band in 1922 and now with the Shrine band in Waco, will report here on October 15 to become director of the band in Cameron.

Paul H. Medsker who has been director of the band for the past three years will leave Monday for Fort Worth where he becomes director of music in the Southwestern Theological Seminary of the Baptist church.

Mr. Scott will become director of the band to fill out the unexpired contract of Mr. Medsker. He is said to be an excellent musician and director and is now solo clarinet player in the Karem Shrine band of Waco.

The resignation of Mr. Medsker will become effective on January first, Mr. Scott supplying for him until that time. The council will then conclude a new contract.

Miss Eva Butts of Maysfield was a Cameron visitor last Thursday.

THE CARRIERS OF THE LOAD.

(Labor Day, 1923.
BY EDWIN MARHAM.

I, wreathed with riches, crowned with culture, sat
By my great window opening to the stars,
The smoke-rings cirling upward as I mused,
The vast rooms glowing with their marbles filled
With treasures from a hundred lands. Outside
My purring motor stood, my racing yacht
Chafed at the pier. All things were mine—
All mine at last, and life smacked very sweet;
For I had won them with my own strong powers!

Then flashed on me a vissionary Lost,
The stooped and silent toilers of the world.
I saw the dust-drab miners, candle in cap,
Gouging the coal from caverns underground—
Thousands of men imprisoned under the earth,
As the condemned for crimes incredible.
In the gray dawn, under the fading stars,
I saw bent plowmen with their smoking teams,
Turning the deep dark furrows to the light—
Saw harvesters, in long, hot afternoons,
Reaping the grain and piling fragrant hay
In golden heaps. On far Atlantic shores,
I saw the white sails of the fishing boats,
Groping their way from rivers to the sea.
I saw the liners on the ocean rim.
Trailing their bannered smoke upon the wind;
While buried deep is the steaming hold of the ship
The reeking stokers, red in the furnace glare,
Heaved all day long their endless tons of coal.
On Texas plains I saw the cowboys ride
In clouds of dust behind the bellowing herds.
I saw the trains sing over the narrowing rails
With sleepless watches at the throttle-bar.
Far in the Northwest suddenly I heard
The axes ringing out of Oregon,
Answered by axes in Wisconsin woods
In chorus with the lumber mills of Maine.
Then I saw builders hewing heavy beams,
Lifting the rafters, driving home the nails,
Erecting mansions never to be their homes.
Far in the South, among the foam-white fields,
I saw the cotton-pickers, stooped in the sun
And moving wearily. Then they faded out
And mills of cotton-weavers glided in,
Mills choked with the flying lint and murky air,
Where haggard children toiled among the frames.
And then I saw pale workmen, row on row,
Bent in the sweatshops in the eternal roar
Of wheels and flying needles. Mothers were there,
Crushed with grim burdens that unwomaned them,
With children who are aged even in youth.

These visions rose and faded; then a voice
Cried into my heart: "Man of white-handed ease,
You have beheld your hard-pressed brothers, seen
The conscripts who are carrying your load."

"OUR CAMERON."

By ROBERT MAYFIELD.

That little town in the County
Known by that name we love,
Is getting all of God's bounty
Which is sent from above.

Our farmers are all picking now
That fleecy white clean cotton,
Which fact does money us allow
For goods which they have gotten.

Our streets are in the making heat
As one may easily see,
By riding first on our paved street
And then to rough ones gee.

Yes there is quite a difference
Between those paved and not,
And there will be a difference
In tires that have to rot.

So now we will all "Jazz" around
In our new Ford's so fine,
Until the stars in our dear town
Will all begin to shine.

Even a boy on his old bike
Does love to ride around.
On this none other than true pike
Upon which none could frown.

Oh! yes this little town you see
Is standing all the tests,
And some big city it shall be
As soon as all the rest.

PRESIDENT COOLIDGE APPEALS TO AMERICAN PEOPLE TO AID JAPAN R. C. TO WORK.

Washington, Sept. 3.—An appeal to the American people to contribute to the relief of the people of Japan was issued today by President Coolidge.

The American Red Cross was designated as the organization to which relief contributions should be transmitted.

At the same time it was made clear that such assistance as was within the means of the executive branch of the government would also be rendered.

Immediately after the president's proclamation was made public the Ameircan Red Cross announced that it started a relief fund with a contribution of $100,000. In addition, it has appropriated from its reserve funds $10,000 for the assistance of Americans in the disaster zone.

The text of the proculamation follows:

"To the People of the United States: An overwhelming disaster has overtaken the people of the friendly nation of Japan. While its extent has not as yet been officially reported, enough is known to justify the statement that the cities of Tokio and Yokohama and surrounding towns and villages have been largely if not completely, destroyed by earthquake, fire and flood, with a resultant appalling loss of life and destruction and distress requiring measures of urgent relief.

"Such assistance as is within the means of the executive department of the government will be rendeded; but realizing the great suffering which now needs relief and will need relief for days to come, I am prompted to appeal urgently to the American people whose sympathies have always been so comprehensive to contribute in aiding the unfortunate and in giving relief to the people of Japan.

"In order that the utmost co-ordination and effectiveness in the administration of the relief funds be obtained, I recommend that all contributions, clearly diesignated, be sent to the chairman of the American National Red Cross at Washington or to any of the local Red Cross chapters for transmission to Japan."

Cameron, Texas.

"Strong and Well"
"I WISH you could know how much I am improved since taking the Cardui," writes Mrs. Nannie Brown, of Black Rock, Ark. "You wouldn't know me for the same weak invalid I was before I took it. At my . . . I had to keep off my feet or I would fail. I couldn't do my housework, and just got where I'd most as lief be dead as living. Some one told my husband of Cardui. He got it for me and I took three bottles before I stopped—then off and on for the last three years just as a tonic. I saw a decided improvement after my first bottle. I used the three, and was able to do my work with ease, and now I sew for my family and for others. I am feeling fine, and strong and well."
Take Cardui! It may be just the medicine you need.

TEXAS PRESBYTERIANS WILL MEET IN DALLAS

SYNOD OF STATE TO ATTRACT DELEGAES FROM ALL OVER COUNRY.

Members of the Southern Presbyterian church throughout Texas are interested in the meeting of synod to be held as the First Presbyterian church in Dallas on September 11. Practically every one of the 390 churches in the state will be represented by ministers and elders and the program will call for considerable progressive work. One of the most important matters to come up will be the report of the committee on schools and colleges and the recommendations for opening up the movement for Christian education in Texas. This will provide for the raising of a fund for endowing and equipping the institutions under control of that church. Preliminary work on this movement has already started and considerable data will be secured for presentation to synod.

Synod will be called to order at the Dallas First Presbyterian church and the sermon will be preached by the retiring moderator, Rev. Dr. H. C. Evans of Austin. Following the election of officers there will be committee reports. On Wednesday following committee reports there will be a special sermon by Rev. Dr. Robert Hill of Tyler. Memorial services for ministers who have died since the last meeting will be held Saturday afternoon. On Wednesday evening there will be a sermon by Rev. Dr. M. E. Melvin, of Chattanooga, Tenn. Dr. Melvin is Secretary of the Stewardship Committee of the entire Southern Presbyterian church. This committee has charge of the finances of the church. Thursday morning there will be a sermon by Rev. Dr. A. G. Jones of Austin Seminary. Thursday night there will be a home mission conference arranged by Rev. Dr. Brooks. Dickey. The meeting will adjourn Friday.

Rev. Dr. S. J. McMurry of Gatesville is stated clerk and treasurer of the synod and Rev. Dr. J. G. Varner of Denton is permanent clerk.

ROCKDALE MAN SINKS HIS OWN OIL WELLS.

Rockdale, Texas, Sept. 3.—With heavy rotary rig and full equipment arrived here and in the I.-G. N. yards awaiting transfer to his plantation, Dr. T. D. Rountree is preparing to put down several wells on his 325 acres south of and adjoining the Tidal Oil Company's lease of 260 acres off the Rountree tract.

Location for the first wells probably will be on the lower and southeast end of the 235. Dr. Rountree owns the land in fee, and says that he is done with leasing from now on. The Tidal Company drilled 11 holes on their 260, seven of which are small producers. The Tidal paid $62,400 cash bonus for the lease hold. Its contract with Rountree called for drilling 18 wells. Rountree collected $39,000 cash initial payment from the Tidal one half year ago.

Plunkett Oil Company, (John D. Flewellwyn et al) is drilling around 600 feet in its No. 1 Rudolph Von Centen, about 4 miles west of Rockdale, and about 2 miles west of the Williams & Hall No. 1 Stork, which was drilled to 2,200 feet and shut down. Plunkett Company owns nearly 1,000 acres in the west side, which included the acreage and well drilled to 2,200. Flewellwyn being the financial backer of the project, and took over the acreage after Williams & Hall quit. The drill entered the green sand in this Von Conten well several days ago.

Homer W. Brown et al have derrick built and are rigging up on their 35-acre H. T. Coulter tract adjoining the Watson wildcat triplets. They probably will spud Monday. M. H. Wilson who drilled many wells for the Coyle-Concord Company in the Rockdale-Minerva shallow pool, is in charge and will try to make a record in drilling the No. 1 Coulter, which is one of the wildest of wildcats. A producer there will blow the lid off. The Coulter location is but slightly more than 2 miles north of Rockdale.

CHERIFF'S SALE.

THE STATE OF TEXAS
County of Milam.

By virtue of a certain alias execution issued out of the Honorable Justice Court of Precinct No. 1, Milam county, Texas, on the 14th day of August 1923, by J. M. Ralston, Justice of the Peace of Precinct No. 1, Milam county, Texas, against B. J. Hearne for the sum of One Hundred one and 91-100 ($101.91) Dollars and costs of suit, in cause no. 1903 in said Court, styled Milam County Hardware Company, a corporation, vs. B. J. Hearne and placed in my hands for service, I D. S. Rogers as sheriff of Milam county, Texas, did on the 14th day of August 1923, levy on certain Real Estate, situated in Milam county, Texas, described as follows, to-wit:

118 acres of land out of the Jeanette Bowen survey which survey was patented to her by patent dated Dec. 18th, 1850 and recorded in Vol. 13 page 413 deed records of Milam county, Texas. Said 118 acres of land being situated about 20 miles East of the town of Cameron and being described in two tracts as follows:

1st Tarct—40 acres of land being lot number 9 and bounded as follows: Beginning at a stake in the S. B. line of the W. M. Wilcox 1320 acre tract from which a P. O. brs. S. 84 W. 6 vrs. and being 1658 vrs. form the S. E. corner of said Wilcox tract; Thence S. 30 W. 545 vrs. to a stake from which a double P. O. brs. S. 30 E. 1 vr. thence S 60 W. 414 1-2 vrs to a stake from which a P. O. brs. S. 3 W. 3 vrs. another S. 88 E. 3 vrs; thence S. 30 E. 545 vrs to B. J. for corner; Thence N 60 E. 414 1-2 vrs. to the place of beginning, being the same described in deed recorded in volume 130 page 521 of the deed records of Milam county, Texas;

2nd Tract—78 acres of land described as follows: Beginning at the N. E. cor. of the 174 acre tract conveyed by Daniel K. Davis to L. N. Tidwell by deed dated Jan. 6th, 1908, and recorded in volume 76 page 528 deed records of Milam county, Texas, said beginning corner being on he N. W. B. line of the original survey; thence S 60 W 450 vrs. to N. E. cor. of the N. E. 96 acre tract deeded by L. N. Tidwell to Mrs. Mollie Erwin; thence S 30 E. 1090 vrs. to the S. E. cor. of said 96 acre tract for the S. W. cor. of this tract; thence S. 60 174 acre tract for the S. E. cor of this E. 343 1-2 vrs. to the S. E. cor. of said tract and being the S. W. cor. of the above described 40 acre tract; thence N. 30 W. 545 vrs. to N. W. cor of the above described 40 acre tract; thence N. 60 E. with the N. B. line of said 40 acre tract 124 1-2 vrs; thence N. 30 W. 575 vrs. to the place of beginning, being the same land conveyed by J. E. Harwood and wife to B. J. Hearne by deed dated Jan 4th 1916, and recorded in vol. 130 page 526 deed records of Milam county, Texas, and levied upon as the property of said B. J. Hearne, and that on the first Tuesday in October 1923, same being the 2nd day of October, 1923, at the Court house door of Milam county, in the City of Cameron, Texas, between the hours of ten a. m. and four p. m. I will sell said real estate at public vendue, for cash, to the highest bidder, as the property of said B. J. Hearne by virtue of said levy and said writ of execution.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Cameron Herald a newspaper published in Milam county.

Witness my hand, this 5th day of September 1923.

D. S. ROGERS, Sheriff.
Milam County, Texas.
By H. H. Hartsfield, Deputy. 19-3t

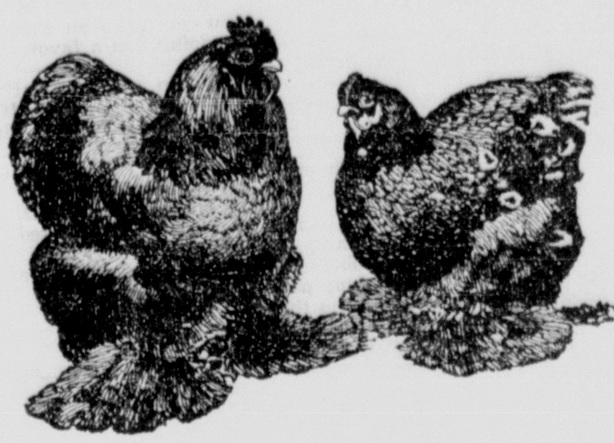
The Herald, $1.00 the year.

LITTLE RIVER CEMETERY.

The people met at Little River church August 26th and organized a Little River Cemetery Association for the purpose of keeping the cemetery in better condition.

Any one having an interest there may send their contribution to the secretary.

MRS. J. A. McKINNEY, Sec'y.
Jones Prairie, Texas.



Bring your Chickens and Eggs Here!

While the cotton is too wet to pick load up those chickens you have to sell and bring them in to us. As we have in the past, we are paying the highest market price for Chickens, Turkeys and fresh eggs. We need a bunch of chickens and eggs this week, get what we are offering before you sell. It will put money in your pocket.

BRING 'EM TODAY.

The Peter Company

Cameron, Texas.

THE ISSUES OF 1924.

The change in the office of Chief Executive does not change the fact that the Presidential campaign of 1924 will be fought out on questions of party policy.

One of the first announcements of President Coolidge was that he would carry out the policies of President Harding, and he gave the best evidence possible that he intends to do so in retaining the full membership of President Harding's Cabinet. President Coolidge therefore should have full credit for complete sincerity in making this promise. The issues of 1924, in view of this promise, remain unchanged, however they may be supplemented by issues raised by the new President.

"What will be the issues in 1924?" is a question often asked. The most specific and comprehensive answer so far has been made by Cordell Hull, Chairman of the Democratic National Committee. Chairman Hull says:

"All the live and material issues of 1924 cannot now be forecasted either in general or in detail, both on account of changing conditions and of the ability of the party in power to make and unmake some issues by acts of omission and commission. All pressing and vital issues materially affecting the welfare of the people, or of most of them, should be kept abreast of each other. The next Democratic National Convetion alone can define the issue for Democrats. From present-day opinion and discussion, however, the following may be pointed to as some of the more important issues of the present and the immediate future, without reference to the order of their importance:

"The demonstrated failure of the Republican administration, dominated by the Old Guard at all times, which has been aimless, instable and unable either to understand or to solve most of the acute domestic and international problems.

"The broken Republican platform pledge to reduce the high cost of living and to prosecute the profiteers.

"The Fordney-McCumber tariff law, already costing the people four billion dollars a year in excessive and extortionate prices.

"Special privilege in its many other aggravated forms, as prompted and championed by the Republican administration.

"The practical application of the principle of international co-operation, embracing the essentials and fundamentals of the foreign policies of the recent Democartic administration, to existing conditions, contrasted with the humiliating failure of the Republican administration to deal decisively with any important phase of foreign affairs.

"A constructive patriotic merchant marine policy as against the proposed $750,000,000 ship subsidy.

"A sound and humane industrial policy to solve industrial problems,—to insure full and equal justice to labor and capital, and to sustain their peaceful relations,—in contrast with hopeless Republican failure during the past two years.

"Relief in transportation and transportation costs.

"A more progressive and constructive remedy for the desperate condition of agriculture, especially as it relates to transportation and distribution, and foreign markets.

"Speedy and equitable tax reduction—Federal, State and local—accompanied by rigid economy.

"States rights and local self-government in matters purely local in their nature.

"Honesty and efficiency in the public service, contrasted with corruption and almost anarchy in a number of Government departments.

"Republican betrayal of the Civil Service.

"A much higher standard of public and political morals in contrast with Newberryism and Daughertyism.

"Application of the great body of intelligent, sound, liberal, and progressive sentiment to the prompt solution of conditions and problems affecting the commercial, economic, industrial and social welfare of the people.

"The adoption of sound, economic and trade policies, domestic and foreign, in contrast with existing wholly unsound policies, or none at all, of the Republican administration."

WE NEED SANE CRITICISM.

An American critic of American people and institutions burst into print with a collection of adjectives which describe us all as "timorous, sniveling, poltroonish, ignominious," refer to the Government as "ignorant, corrupt, incompetent, and disgusting;" calls the courts "stupid and dishonest," and our foreign policy 'hpocritical, disingenuous, knavish, and dishororable."

Quite an indictment. Of course, no sane person pays much attention to the mouthings of any man, no matter how brilliant a pen he wields, whose sole argument is the throwing of mud and the uttering of billingsgate.

Yet there is benefit in such an outburst, if only to illustrate the impossibility of accomplishing anything by destructive criticism. Such obviously childish criticism makes thinking people laugh, but there are many in this country who, with more moderation, if no more good sense, utter drastic criticisms with no thought of suggesting remedies.

There are wrongs in this great land. There is illiteracy, poverty, crime, Bolshevism, intolerance. But Calling names won't remedy such conditions. Call attention to the illiteracy, and fight for better schools and more of them! Admit the poverty, and provide better opportunity, through education for the poor to became self-supporting! Do away with the crime through better laws, swifter justice, cutting red tape! Knock the Bolshevistic idea on the head with reverence to the flag taught in school and Americanism taught everywhere! Fight intolerance with toleration, but think to combat none of these evils by calling names!

Hello, folks. A profiteer is a man who gets down to breakfast and pours the cream off before you get up.

One thing about a porch swing, you never have to figure out how many miles per gallon.

A bee wouldn't make a good politician. He can't sting anybody but once.

The difference between a man and woman is that a man never feels comfortable in a new hat.

Our idea of a truly helpful wife one who thinks it good fun to mow the lawn.

Corn doctors are about to split over whether they are to call themselves chiropodists or podiatrists. What difference does it make so long as they chirop or podiat?

Old Colored Mammy: "Ise wants a ticket fo' Florence."

Ticket Agent (after ten minutes of weary thumbling over the rail road guides): "Where the devil is Florence?"

Old Colored Mammy: "Settin' over dar on de bench."

The results of nine Presidential straw votes show we will have nine Precidents next time.

Her eyes are wooing jewels;
Her hair—it is divine
She's got the "kick" to, boy, she has
That dear old mule of mine.

Most any man is more interested in the art of love than he is in the love of art.

Adults like ice cream; children love it.

Sriends of Coolidge want him to take a western trip. After what has happened to President Wilson and Expresident Harding, the best advice to him would be to stay in Washington.

Don't use the steam in your whistle that should be used in your cylinder.

A man isn't presidential timber just because he howls. Still, he might be dogwood.

Stout woman—"Put some oil in my car."

Service Station Clerk—"Sure, heavy?"

Stout woman—"Say, don't get fresh with me. I'll buy my oil elsewhere."

We always have to think to be polite. Our natural impules is to help ourselves first.

It's hard to get along without the maid but oh, boy, isn't it great to be able to eat in the good old kitchen one more?

From all appearances the soldier's bouns is bogus.

Oh, these girls, girls, girls; simple dimpled girls;
With their lipstick, rouge, and powder, and their artificial culrs.
Well, some guys fall for the short ones, and some guys fall for the tall;
But me, I'm not particular, and just fall for 'em all!

True honesty is being fair to everybody, which includes yourself.

It takes years to make a friend, but you can make an enemy in a minute by doing him a favor.

If you want to flatter a girl tell her she is beautiful. If you want to flatter a fellow, tell him his girl is beautiful.

Good morning, glory! I heard a little humble bee a buzzing around my chair, but tho I looked I couldn't see the insect anywhere. The buzzing ceased—I gave a yell and clasped my punctured shin. For tho I couldn't see the bee, I found where it had been in.

Household Hints—"How to make an excellent jam: Take a narrow street 10 automobiles and one green driver."

THE SHE BOSS.

First little girl: "My father's an editor; what does your father do?

Second little girl: "Whatever mama tells him."

The face of God gives to the world the sunshine—what does your face give it,

Straw votes would mean more to us if we could forget that they once elected General Leonard Wood.

THINGS LOOKING BAD.

This is the story of Jonny McGuire,
Who ran through the town with his trousers on fire;
He went to the doctor's and fainted with fright,
When the doctor told him his end was in sight.

Good teeth give one more pleasure than good sense.

Correct this senence: "You old dear," cried the wife, "I knew you would keep the dishes washed up while I was away."

Chicago store sells bungalows over the counter. Take one home in your shopping bag and surprise the wife.

THE WRONG HAND.

Two ladies boarded an crowded street car and were obliged to stand. One of them, to steady herself, took hold of what she supposed was her friend's hand. After standing thus for a few minutes she looked down and discovered to her embarrassment that she was holding a man's hand.

"Oh," she gasped, "I've got the wrong hand."

The man withdrew his hand, and with a smile held out the other, "It's all right, Miss," he said, "here's the other one."

Lightning will hit in the same same place oftener than good luck.

The penalty of being a high-brow is that you have to read so many books you don't like and don't understand.

Autumn time has come to the hay fever victim the sneeziest of the year.

We never see Owen Moore's name in print but what we think of a little ditty of pre-war vintage. (Cival War.) It, to the best of our recollection, went along thusly:

Owen Moore left town one day
Owin' more than he could pay;
Owen Moore came back this way—
Owin' more!

JAMES L. COLEMAN TO WED MISS INEZ PRIDAY.

Mr. and Mrs. Le Roy Willis request the honor of your presence at the marriage of their daughter, Inez Betsy Friday to Mr. James L. Coleman on Wednesday, September 19, 1923, at 10 o'clock in the morning at the Presbyterian church, Taft, Texas. At home after October, 1, Rockdale, Texas.

The above invitation was received announced the approaching marriage of one of Milam county's most promising young men, James L. Coleman, only son of Mr. and Mrs. J. W. Coleman, has lived in Cameron all of his life until a few weeks ago when he moved to Rockdale to assume a responsibile business position. He is a young man but he has taken a correct view of life and has entered upon its duties and responsibilities with commendable zeal and earnestness. He was educated in the Cameron schools and at Baylor University. He taught school one year at Gregory where he met the young lady who is to become his wife.

He started his business career last year in Cameron under his father's tutelage and in July was elected manager of the Rockdale Furniture Company a branch of the Cameron Furniture Company in which his father is principal stock holder.

The bride to be has visited in Cameron and all who met her were impressed with her charming manner and girlish beauty.

ANGEL-HICKMAN.

Miss Lavata Angel and Mr. Starrett Hickman were married Tuesday evening at the home of the bride at Walkers Creek, Rev. Russell C. White, pastor of the Cameron Baptist church performing the ceremony.

The bride is a daughter of Mr. and Mrs. Dave Angel, old residents of this county.

Mr. Hickman is employed with the Dobbins Grocery Store. They have the best wishes of a wide circle of friends.

COTTON PALACE AMUSEMENT ROW TO BE THRILLER

Famous "Warpath" of Exposition at Waco to Eclipse all Past Efforts as Fun Producer

The Warpath! Ah, what magic words these. Recalling pleasant memories to both young and old, this great center of attraction at the Cotton Palace has come to be known by this name only—nowhere else in the wide world is there to be found another Warpath. The International Cotton Palace Exposition is the only place on earth where an amusement row of its class may be found. For the quality of the feature shows upon the Warpath surpass all other similar performances of that type anywhere. Hence the shows to be found here are as exclusive as the name of the famed vicinity wherein they are daily produced during the period of the great exposition.

But the 1923 Cotton Palace Exposition is surpassing itself as manifested in former years upon the Warpath in the class of shows and the type of amusement offered. There will be offered this year a larger number of side shows of a higher grade and better quality than have ever before been presented at one time anywhere—even at former expositions of the great international Cotton Palace.

All types of amusement from Noah's Ark to the ferris wheel and merry-go-round will be centered on the famous Warpath at the 1923 Cotton Palace. Side shows, musical comedies, follies, animal shows, races of various sorts, masters in ventriloquism, colored comedians and imitators, and scores of other headline features will be presented upon the Warpath this year, besides the usual kewpie doll stands, etc.

When the announcement went forth that the 1923 exposition of the International Cotton Palace Association was to supercede all previous Cotton Palaces, the Warpath was included with all other departments as super-extra, and this feature will be composed this year of the very best talent in all the many lines of feature entertainment that only the Warpath produces.

BIG BAYLOR-A. & M. GAME AT THE COTTON PALACE

Waco, Texas.—When Baylor meets A. & M. two of the strongest contenders for the title in the southwestern collegiate athletic conference will be seen in action on the gridiron at the Cotton Palace Exposition grounds. Baylor will be fighting hard to keep the coveted championship which she brought home last year, while A. & M. will show that fight which carried her to victory over the Center College eleven in 1921, the championship team of the United States. Fans realize the importance of this big game at the Cotton Palace and the grandstand and bleachers which surround the entire field on that day will be packed to the last seat with many standing on the ground.

COTTON PALACE QUEEN'S BALL BRILLIANT EVENT

Waco, Texas.—The crowning social event of the fall season of the southwest comes with the announcement of the 1923 Queen of the International Cotton Palace Exposition. The Queen's Ball, the most gorgeous event in all Texas, staged annually at the Cotton Palace, will be even more magnificent than ever this fall. With beauties from practically every state in the galaxy as princesses, named by the governors of the states and the president of the United States, this event is very fittingly termed the crowning social achievement of the great southwest.

Waco, Texas.—The Warpath of the 1923 Cotton Palace will be a collection of the greatest variety—there are to be shows which will appeal to the species human being of all ages, from the baby just learning to walk, to the grandfather.

Waco, Texas.—Low rates will be in effect on all Texas railroads for the Texas Cotton Palace Exposition at Waco, Oct. 20 to Nov. 4. Tickets can be bought from any point in the state at greatly reduced rates.

ICE CREAM SUPPER.

There will be an ice cream supper at the Yarrellton Baptist church Saturday night, September 8, benefit of the piano fund. Everybody invited.

PRESBYTERIAN CHURCH.

The pastor is home after a very pleasant visit with relatives in North Carolina and other Eastern States. There will be the regular preaching service Sunday.

The State Synod meets in Dallas on Tuesday night of next week, the pastor and one Elder from this church will attend.

H. R. McFADYEN, Pastor.

JOE SCHILLER.

Joe Schiller, age 27, son of Mrs. Vinc Schiller of Cameron, died in Corsicana, Saturday September 1. His body was brought to Cameron and buried Tuesday afternoon, September 4, in Oak Hill Cemetery. He is survived by his mother, several sisters and brothers, who live in and near Cameron.

MRS. THOMAS BATLA.

Mrs. Thomas Batla died at her home in Yarrellton last Saturday. Mrs. Batla was the mother of 7 children. She was 88 years old and had lived in this county a number of years.

OUT OF THE GLOOM.

Many a Gloomy Countenance in Cameron Now Lightens with Happiness.

A bad back makes you gloomy.
Can't be happy with continual backache.
The aches and pains of a bad back
Are frequently due to weak kidneys.
Doan's Kidney Pills are recommended for weak kidneys.
So Cameron citizens testify.
Ask your neighbor.

S. E. Pitts, merchant, Nolan Ave., Cameron, says: "My kidneys were giving me a lot of trouble. My back seemed to ache all the time and the muscles were sore and lame. I was sore across my kidneys and felt played out. I picked up a paper and read about Doan's Kidney Pills and began taking them. After using about two boxes of Doan's, all those disagreeable conditions left. I advise any one who has kidney complaint to try Doan's."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Pitts had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (H)

The Quinine That Does Not Affect The Head

Because of its tonic and laxative effect, LAXATIVE BROMO QUININE (Tablets) can be taken by anyone without causing nervousness or ringing in the head. E.W. GROVE'S signature on box. 30c

SULPHUR SOOTHES UGLY, ITCHING SKIN

The First Application Makes Skin Cool and Comfortable

If you are suffering from eczema or some other torturing, embarassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist.

This sulphur preparation, because of its germ destroying properties, seldom fails to quickly subdue itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Rowles Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.

SPECIAL NOTICE!

Tuesday September 11 and Thursday September 20 our store will not be open on account of the Jewish Holidays.

W. KLAWANSKY

Bring us your cotton and all farm produce.

Will pay 30c per dozen for fresh eggs.

C. N. Green & Bros.
Cameron, Texas.

Sportsmen Prepare For Hunting Season; Game Laws Changed

Great activity in the sale of hunting licenses is the report coming from over the State, according to Game, Fish and Oyster Commissioner W. W. Boyd. Applications for licenses have been coming in for weeks and for the past 10 days the office force has had about all it could do in mailing out consignments.

Much discussion and some misunderstanding has resulted from the amendment to the federal law on migratory birds, ducks and doves, which divided the State into the northwest and southwest zones with a difference of season.

In reply to inquiries Mr. Boyd has advised that State officers can not enforce the federal law but will cooperate with federal wardens by giving notice when their law is violated. The purchaser of a hunting license will find printed on the back of the license a synopsis of State and federal law indicating the season in which one may hunt without violating either law.

The synopsis follows:

BAG LIMIT AND SEASON.

You must not kill, catch, possess or ship, at any time during the year, antelope, mountain sheep, woodcock, wood duck, egret or other plume bird, non-game water fowl, song bird, insectivorous bird, pheasant, turkey hen, doe deer or spotted fawn.

You must not hunt from motorboat, sailboat, airplane or boat under tow; and must not hunt at night with any sort of light or lantern.

You must not buy or sell (or barter) any game bird or animal.

You may kill at any time, in any numbers, English sparrows, rice birds and blackbirds, buzzards, crows, owls, hawks, (except sparrow hawk) and rabbits. Also the following game:

OPEN SEASONS.

North zone, north and west of International and Great Northern and Texas and Pacific railroads running from Laredo to San Antonio to Austin to Longview to Texarkana:

Doves, September 1 to December 15. Closed in Grayson county.

Ducks, geese, brant, Wilson or jack snipe, October 16 to January 15.

South zone, south and east of International and Great Northern and Texas and Pacific railroads, running from Laredo to San Antonio to Austin to Lonview to Texarkana:

Doves, November 1 to December 15.

Ducks, geese, brant, Wilson or jack snipe, November 1 to January 31.

ALL-STATE LAWS.

Deer, November 1 to December 31. Closed in Bosque county.

Quail and chahalaca, December 1 to January 31. Closed on quail in Grayson county and on blue quail in Lampasas county.

Quail and dove, Fayette county, open season in month of December.

Plover, October 16 to December 15. Federal closed season on upland polver.

Squirrel, Angelina, Cherokee, Hardin, Liberty, Nacoghoches, Dallas, Rockwall, Tyler, Jefferson, Orange, Jasper and Newton counties, August 1 to December 31.

Wild turkey, November 1 to December 31. Exceptions, March 1 to April 30, only in Gillespie and Kendall counties in Central Texas; Dallas and Rockwall counties in North Texas; and Cherokee, Nacogdoches, Angelina, Tyler, Jasper, Newton, Orange, Jefferson, Hardin and Liberty counties in East Texas. Closed in McMullen, Jim Hogg, Brooks, Kenedy, Willacy, Starr, Hidalgo and Cameron counties in Lower Rio Grande Valley.

Prairie chicken, only in Gray, Wheeler, Hemphill and Lipscomb counties, September 1 to 10.

BAG LIMITS.

Never more than 25 of all kinds in one day's bag and never shipping or possessing more than a grand total of 75 of all kinds.

Deer, three bucks in one season.

Quail and chachalaca, 15 in one day in open season.

Wild turkey, three gobblers in one season. Exeptions, only two in Dallas, Rockwall, Cherokee, Nacogdoches, Augelina, Tyler, Jasper, Newton, Orange, Jefferson, Hardin and Liberty counties.

Doves and plover, 15 in any one day.

Geese and brant, not more than eight in any one day.

Ducks and Wilson or jack snipe, not more than 25 in any one day.

Prairie chicken, not more than five in any one day, and not more than 15 in any one season.

Squirrels, five in any one day.

Hogs! Hogs!

See us before you sell your hogs we will give you the highest market price every day of the year.

FARMER FINDS SUCCESS IN ROTATION OF CROPS.

Rockdale, Texas, Sept. 3.—That a success can be made of farming in the sandy land sections of Central Texas and in highly adverse circumstances, such as bad weather conditions, is proven by the crops grown this year by J. A. Schkade of Lee county, between Lincoln and Manheim. Mr. Schkade has fine crops of darso, kafir, soya beans, barley broom corn and several varieties of cotton. He has made heavy yields from all his crops. Mr. Schkade rotates and does deep plowing in the fall.

OUR NEW MODERN HOME.

A BANK OF SERVICE

Demand for better banking service in Cameron and Milam county has been met to a most satisfactory degree of efficiency and increased facilities with the completion of the modern banking room to house the resources of the Cameron State Bank.

In seventeen years of mounting success this bank has grown in proportion to the increased needs of the city and county and in this building has been provided facilities that anticipate to an extraordinary degree the rich ripe years that are to come in the career of this bank for greater service to the people.

The confidence of the people in this bank coupled with its strength and ability to serve in its capacity of promoting thrift and industry have brought about its remarkable growth and made possible the building of this new building.

SAFE --- STRONG --- CONSERVATIVE

Few men succeed in business without the aid of a strong bank that is willing and able to help in time of need. The advice of a good bank is indispensible to a successful business career. This is a bank of personal service—a business partner to its customers and strong enough to meet all the demands of modern banking.

100,000 DEAD IN JAPAN FOLLOWING EARTH QUAKE

San Francisco, Sept. 2.—Tokio, Yokohama and neighboring cities tonight were burning ruins while more than 100,000 persons in the vicinity of these cities were reported dead as result of Saturday's earthquakes, according to advice received in San Francisco by the Associated Press from its Shanghai correspondent and by the Radio corporation from its station at Tomioka.

Shanghai, Sept. 2.—Bulletins received here from Japan report that 100 000 persons perished in Tokio and Yokohama alone in Saturday's earthquake and fire.

The bulletin said fires in the Tokio arsenal caused explosions destroying the arsenal and the adjoining printing bureau, killing several thousand persons. The Nichi Nichi was the only newspaper in Tokio to escape destruction. The Japanese community here is grief stricken.

The most serious damage was done to the tract, covering the Yamanote district, including the Tokio wards of Honjo Fukagawa, Akusaka, Shitaya, Nichonbasht and Kanda, where hardly a single structure was left standing.

Thousands are without water and food. The famed 12-story tower of Asakusa was demolished. Among the large buildings destroyed were the Mitsugoshi department store, the Imperial theatre, the Marunochi building and the Imperial hotel.

When the Kaijo and Marunochi buildings collapsed there were thousands of casualties. Many lofty buildings that lined the street opposite the Tokio Central railway station were burned although the main building of the station remained intact.

In Yokohama the fire following the earthquake started on the Bund (the foreign esction) and spread first through Benten and Isezaki streets, wiping out the business district. Tens of thousands of guests in the mountain resorts of the Hakone district, many of whom were foreigners, were panic stricken. There were 11 quakes at Mount Hakone and the town of Atama, in this district, was demolished. Six or seven thousand persons perished.

At Ito, on the Idzu peninsula, more than 500 houses were washed away by tidal waves. Six hundred persons are said to have perished when the railway tunnel at Sasako, the largest in Japan, collapsed.

The British light cruiser, Despatch the only foreign war vessel at Shanghai, sailed at 4 o'clock this morning for Yokohama, expecting to arrive in 18 hours.

Pekin, Sept. 2.—A wireless dispatch from Oska says the town of Nagoya, 170 miles southwest of Tokio has been vihtually destroyed.

The navai station at Yokohama was engulfed by a tidal wave.

The Imperial Palace in Tokio is endangered by fire.

The streets of Tokio are heaped with bodies of dead, according to advices form South Japan.

The causulties in the Japanese capital are said to be inestimable.

Most of the big buildings were destroyed.

Nagoya, a city of several hundred thousand inhabitants, 150 miles south west of Tokio, has been virtually destroyed.

At Yokohama the naval station was overwhelmed by a tidal wave.

Nagoya is practically destroyed, the naval station near Yokohama is engulfed by tidal wave, and the Imperial Palace at Tokio is endangered by fire, according to a wireless message recelved here today from Osaka, Japan.

Nagoyo, one of the principal cities of Japan, has a population of approximately 620,000. It is about 90 miles east of Osaka, the "Chicago of Japan," and about 170 miles west of Tokio.

Osaka, Sept. 2.—All communication with Tokio is interrupted, but indirect reports indicate that a gerat typhoon broke over Tokio Saturday morning, subsiding at noon.

The typhoon was followed by terriffic earth shocks and conflagrations which threw the city into chaos and struck terror into the hearts of the inhabitants.

Tidal waves washed away houses in the vicinity of the harbor of Yokohama. A number of small towns at the foot of Mount Fuji are reported to have been completely demolished. Hundreds of lives were lost.

Tunnels and bridges have been destroyed.

Terrible havoc has been wrought at many of the summer resorts. There were casualties at Gotemoa and Namadzu.

The earthquake was most severe at Hakone.

The relief seamer Chicago Maru is leaving Osaka this eveing for the scene of the disaster.

REVIVAL OF RACING AT AUSTIN SEPT. 15.

Austin, Texas, Sept. 6.—The one half mile, circular race track on Camp Mabry has been completed and is being kept in readiness for the Austin, October 1 to 6. Work will start immedaitely on the construction of 125 stalls for race horses, and other preparations for the racing are going forward.

A restaurant is being operated on the Camp Mabry grounds and sleeping quarters in the barracks are provided for all race horse men coming to Austin to train their horses on the Camp Mabry track. Several race horse owners have already put in their appearance here, and by the 15th of September it is expected that the racing course will be the scene of all the activities of a big racing field.

A sprinkler is being kept on the grounds and will be used up until the opening day of the fair to keep the track in shape. The course will be sprinkled and dragged and worked into excellent condition by that time.

The racing porgram of the Exposition showing $5000 in purses, has been mailed out by Walter Bremond, Jr., chairman of the racing committee and special stress is being put on the Exposition Derby Day, when a $1000 purse is to be distributed in one race.

Unusual interest seems to be developing in horse racing in Central and South Texas. All fairs held to date have had full entries in all races, and several of the fair associations have been forced to build additional stalls. It is expected that more than 100 race horses will be in Austin for the Exposition races, as the purses offered here are larger than those of any other fairs of South and Central Texas.

CATARRHAL DEAFNESS

is often caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing. Unless the inflammation can be reduced, your hearing may be destroyed forever.

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh. HALL'S CATARRH MEDICINE has been successful in the treatment of Catarrh for over Forty Years.

COLE'S ORIGINAL HOT BLAST HEATER

THE famous Hot Blast Draft in this remarkable stove burns all the combustible gases from the fuel—under-draft stoves waste this valuable portion of the fuel.

That is why Cole's Original Hot Blast Heaters are guaranteed to consume one-third less fuel than any under-draft stove of the same size.

Stop and think what this saving will mean to you with coal at its present price.

REMEMBER:

Cole's Original Hot Blast will—
Save one-third your fuel—
Burn any fuel—
Hold fire thirty-six hours!

Step in today and let us show you this great fuel saver.

DODGE BROTHERS TOURING CAR

The comfort and beauty of this new touring car are instantly apparent.

Long underslung springs, deeper seats and greater body length have resulted in an unusual degree of riding ease.

The body is exceptionally trim and graceful. Swung low to the road, with long, straight hood-and-cowl effect and tasteful appointments, the car reveals new value and sound workmanship in every detail.

The engine—which remains essentially the same—needs no eulogy. It has proved its power and economy to nearly a million owners.

A. & M. COLLEGE MAKES STRIDES OF PROGRESS

ADMINISTRATION OF DR. B. YOUNGBLOOD IS ONE OF ADVANCEMENT.

Dr. B. Youngblood a former Milam county man as director of the Texas Agricultural Experiment station has made the school what it is and his many friends here will be glad to read this sketch of his work.

Recentlv he made it possible for Milam county to get a soil survey.

Dr. B. Youngblood, director of the Texas Agricultural Experiment Station, has completed twelve years as Director. This is the longest term that has been served by any director since the organization of the Station, January 25, 1886. The period of Dr. Youngblood's directorate, since Aug. 14, 1911, measures more progress in the development of an effective research agency than any other period of like length and, for that matter, the entire previous history of the Station probably did not witness so much progress. In the first place, the financial support during the early days of the Station was very meager; and in the 23 years preceding Doctor Youngblood's administration, there were seven directors, none of which could have hoped to carry forward, in such limited time, all the policies and ambitions of his predecessor. The Federal appropriation of $15,000 per annum under the Hatch Act was practically the sole source of support for the Station until another $15,000 per annum was provided by Congress under the Adams Act. Of course, there was some little income from sales of the by-products of the experiments; but considering that not more than 5 per cent of the Federal funds may be used for buildings or repairs, and that the Main Station at College Station had never received a dollar of State appropriation prior to Director Youngblood's administration, it is obvious that no great progress had been possible in assembling needed equipment.

On assuming his duties, Direcor Youngblood found the physical property of the Station in need of development, and the scientific work in need of expansion. There had never been enough money put into the enterprise. Now and complicated problems of administration also presented themselves of the large number of new substations which had to be set to functioning and each made to begin yielding up its quota of exact scientific information to the end that the agriculture of each of the several regions served by these substations might adjust itself to the teachings of science and that the farmers might reap not only increased production, but through scientific methods developed at the stations secure good yields at greatly reduced expense.

Following the practice of successful business corporations, Director Youngblood had an inventory made of the value of every piece of Experiment Station property, including that at the then eleven, substations. Nine of these substations had been established only about a year, having been purchased partly by legislative appropriation and partly by donations by citizens in the localities where the stations happened to be placed. This inventory showed a valuation of $25,979.11 for all property at the Main Station, while the grand total for the entire system was only $146,706.18. Considering that the valuation at the close of the present fiscal year will exceed a million dollars, it may be seen that the Experiment Station system has enjoyed considerable business prosperity during the past 12 years. This is due partly to a vigorous modern business system which the Director inaugurated in every branch, though much of it was made possible by timely appropriations by the Legislature. The total appropriation for the 12 years is $1,787,551.92 which is not much in excess of the present actual physical value of the property of the Station system. Probably less than an average of $40,000, per annum could be charged up as the net exepnse to the tax payers for the maintenance of the Station's corps of scientists and their assistants numbering nearly a hundred specially trained people. The output of this force of workers is information which aids farmers to succeed.

This new knowledge may be hard to fully evolute; but the farmer who owns a fine West Texas farm, paid for with one vear's crop of Sudan seed, knows that he has received something of actual value from the Experiment Station and that it is not a small item either. The farmer who is growing 40 bushels of grain sorghum per acre and record yields of cotton where he formerly fattened one steer on 10 acres, knows he has had real help from the Experiment Station; and the tax collectors know when they make fat collections from many successful farmers for roads and schools and whatnot, where they formerly hunted cayotes, that the Experiment Station started something when it introduced successful farming in a vast new region. Farmers in the older sections know that they are able to stay in business in spite of the inroads of crop enemies and the aging of their fields and that they are doing this because the experimental scientist has been functioning. Any one using Experiment Station results will be found satisfied with what the Station is doing and the expense involved does not worry him for he knows it is a trifle as compared with the worth of reliable information.

It is sometimes claimed by the uninformed that scientific farming is not as successful as what they term "practical" farming. Accurate records over a long term of years, however, show that the scientific farming done on the experiment stations produces greater yields and more profitable yields per acre than are made by the average farmer. While this is true, it should be stated that it ought to be true, for the well informed scientist is better fortified against error than a person having less information. On this account, the Station receives annually, quite a snug sum from the sales of crops and other experiments' material and by-products of the work after the necessary scientific data have been secured and recorded. Thus, the salvaging in a business-like way of all valuable materials after they are used enabels a decided reduction in the requirements for appropriated money.

EUROPE'S INDUSTRIAL DECLINE AND U. S. AGRICULTURAL SITUATION.

Analysis of American foreign commerce have been struck with the growth of our trade with Asia, Africa, South America and Ocenica and the relative decline of our purchases and sales in Europe. Speaking of this shift in America's commerce with the outside world, Frederick Todd, secretary of the First Federal Foreign Banking Association, attributes it to three principal factors, one of which, he says, is "the decline of European industry and trade." This depression in Europe is vital factor in the agriculture situation in the United States, but this apparently makes no appeal to the isolationaists even from an economic point of view.

A Good Thing - DON'T MISS IT.

Send your name and address plainly written together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing Chamberlain's Cough Remedy for coughs, colds, croup, bronchial, "flu" and whooping coughs, and tickling throat; Chamberlain's Stomach and Liver Tablets for stomach troubles, indigestion, gassy pains that crowd the heart, biliousness and constipation; Chamberlain's Salve, needed in every family for burns, scalds, wounds, piles, and skin affections; these valued family medicines for only 5 cents. Don't miss it.

Lower Rate of Interest.

I am prepared to make long time loans on improved farm lands for the Joint Stock Land Banks and for private people at a low rate of interest.

The loans can be closed promptly and with little expense.

Now In Stock

Star

and

Durant

Automobiles

We can ow make immediate delivery on both Star and Durant Automobiles by reason of the fact that we have them in stock and can drive them to your home immediately.

The STAR

THE WONDER CAR OF AMERICA.

$529.67

In the manufacture of the Star Car automotive engineering has put together more quality and less cost than any other automotive product since the motor car came into existence. These are facts you should ascertain before buying that car you ought to have for your family. The Star is the lowest priced automobile in the world, its quality taken into consideration. All Models in stock.

The DURANT

THE SUPERB MOTOR CAR

$1010

In the Durant automobile all of the finer qualities of the best automobiles of America have been built in with a price that is much lower than the average high class car. We have Durant's in stock and we welcome comparison of performance and price.

How To Kill Boll Weevils

Last week's letter told how to give a body blow to cut worms. This letter rounds up a few boll weevil facts.

Bollweevils are a 3-in-1 pest. The first doesn't fly, start on early cotton and lasts until the middle of August; the second are flyers, starts the middle of August and wind up in October; the third are hardy fellows and live through the winter. Each of these 3-in-1 stages are different, but October is nearly here and the October brood is the bunch we are after.

The October bunch hunts around for a protected place in the cotton stalks, grasses, weeds and brush, and starts into winter quarters above—never below—the ground. Don't forget this: The October brood lives above the ground through the winter. He sticks around where the head parts of cotton plants are near, so there'll be something to eat.

There are some Mathuclehs in this October bunch, but in the main they "kick off" in 75 days if they haven't some cotton stalks or leaves to eat, but if the farmer generously leaves some cotton stalks or leaves handy, they eat them and live on for 150 days.

When the young cotton comes along in the spring they stick a few eggs around and the Spring and Summer non-flying weevils come and get busy.

Finally comes the so-called "Dispersion Period," and the flyers start for new fields, in which the October or winter broods can be brought into existence. Now, if this 3-in-1 set of facts about boll weevils is kept in mind, it will be easily seen how control can be established. It has been shown on the Taft Ranch, and many other places, for years.

Just exactly how this is done will be told in next week's letter.

'MONTE CARLO' NEAR ROGERS IS BROKEN UP

62 NEGROES AND WHITES NEAR ROGERS ROUNDED UP—MANY ESCAPE.

Belton, Sept. 3.—Sixty-two negroes and whites were rounded up early Sunday morning by Sheriff Albert Bonds, Deputies Johnson, McKay and Eddie Yates in a raid on a negro and white party four miles northwest of Rogers.

Crap games, monte and poker were said to be the principal forms of entertainment at the party until the sheriff and depties arrived on the scene when a stampede ensued. The sheriff reported that 25 made their get-away.

In rounding up the 62 apprehended, nine were taken from under the house, nine in a closet in the house and the other 44 were in the house and in the yard.

The sheriff and deputies swooped down upon the scene before members of the party were aware that "the law was near." Deputy Johnson was the first one recognized and some one yelled "Johnson and the law.' '

The stampede began and the getaway was made more hurried when several shots were fired into the air by the raiding party. Blankets, money, hats and other valuables were left behind. The sheriff stated tonight that he would return these articles to the rightful owners provided they would call at his office here and establish their ownership.

BOLT OF LIGHTENING PLAYS THROUGH HOME OF ROCKDALE FARMER.

Rockdale, Texas, Sept. 3.—Lightening gave an exhibition of one of its freakish actions last Sunday at the home of Henry Mahlmann at Deanville, down in Burleson county, there being no occupant of the house at home at the time of the storm. The bolt first struck the flue, passed to inside the pipe, melted the pipe. Just before hitting the stove top, the bolt bridged two feet of space, struck an iron poker bar back of the stove. Several feet away there was a window, this being struck and hurled out into the yard 75 feet from the house. Next to be struck by the bolt in its crazy cavorting about the place was the side wall of the home which was torn and damaged badly. Next it sprang across to the kitchen cabinet, wrecking this piece of furniture, melted the metal top of it, breaking up the dishes; finally going downward through the floor of the dwelling, struck a house corner block, splintered it to pieces and finally disappeared in the ground, tearing a hole like a whizbang. Mahlmann is glad his family was away, and he feels certin they would all have been killed by the bolt.

HEARNE TEST BLOCKED UP.

Fockdale, Texas, Sept. 3.—J C. Bland and associates, one of whom is Col. W. B. Wortham, former State Treasurer of Texas, have about completed blocking up the land near Hearne for a deep oil test, the number of acres required being about 5,000. The drilling contract being negotiated stipulates that a bond for not less than $10,000 in a good security company shall be made to guarantee that the test shall be drilled to not less than 3,500 feet. The Hearne Chamber of Commerce has pledged to Messrs. Bland and Wortham its co-operation and support in the project to test the county for oil.

FARMER WAITING TURN AT GIN DROPS DEAD.

Rockdale, Texas, Sept. 3.—While waiting his trun with a bale of cotton at one of the local gins last Saturday, George Persons fell dead. Death was pronounced by physicians as induced by heart failure, though Persons had not been known to be thus affected. Persons was a substantial and respected negro farmer living in the Sandy Creek section east of Rockdale. He was about 50 years old.

ROBS CALOMEL OF NAUSEA AND DANGER

MEDICINAL VIRTUES RETAINED AND IMPROVED—DANGEROUS AND SICKENING QUALITIES REMOVED PERFECTED TABLET CALLED "CALOTABS"

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "calotabs." Calomel, the most generally useful of all medicines thus enteres upon a wider field of popularity,—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water,—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original sealed packages, pure 35 cents for the large family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs. (H)-tf

J. D. DOBBINS

When Dobbins names a price our patrons are sure that it represents both good value and true economy—Other merchants imitate Dobbins at times, on a few items and then on the large remainder of their stock charge more. You are sure of bed-rock prices on all purchases when you trade at J. D. DOBBINS.

Curb Immigration, Reclaim Land, Urges Sen. Sheppard

Cisco, Sept. 2.—Industrial and commercial decentralization and the finding of new economic and agricultural frontiers in the mastery of man over the forces of nature by superior knowledge, were offered as the hope for American preservation by Senator Morris Sheppard in a speech here this afternoon.

The plea for the dissemniation of knowledge whereby arid land may be made productive and swamp land reclaimed, products manufactured within the area of their growth and output, and for the supremacy of the products of the handworkers was made by the Texas Senator after a careful analysis of the conceratration of industry dictated by steam machinery and the combination of wealth and power, a situation he described as having effected economic servitude and homeless existence of the American masses, and which inevitably would result in the practical destruction of the American Government.

Applause was frequently elicited by Senator Sheppard in tributes which he paid to former President Woodrow Wilson, the League of Nations and America's participation in the World War.

A feature of his speech was his denunciation of Japan's immigration policy and his arraignment of the governmental policy whereby Japan, he said, is permitted to send into the United States a surplusage of its population as farmers. He used the term "Yellow menace" and said that by the so-called "Gentleman's agreement over the enforcement of the immigration laws" Christian. White America had yielded to Heathen, Yellow Japan. His reference to the Japanese were a part of an extended discussion of the entrance of millions of immigrants into the United States who, he said, have cheapened labor, by furnishing an inexhaustible labor reservoir. The failure of amalgamation has built up within the borders of the United States a discordant group of people. While the majority have gone quietly about their business, a majority of them have fostered Bolshevism, anarchy, and outlawry, and he demanded a cessation of immirgation. "At least until the American has had a chance to counsel with himself and to preserve his racial identity."

Senator Sheppard is making a tour of Texas, and his speech at Cisco is the first he has made West of Fort Worth. Other Western Texas towns will be visited by him. It is the first trip the Senator has been able to make over Texas for years because of continual sessions of Congress. No similar vacation season has occurred since before the entrance of the United States into the war.

Senator Sheppard spoke today in the open air, and he stood on a table. Although he has strenuous tour behind him, he spoke with vigor and energy. His health is the best that he has had for years he told his friends. His voice was resonant, and carried well over a large space.

The Senator arrived here last night and was the guest at luncheon today of Dr. J. W. Gregory. Last night he visited Eastland and Ranger, and expressed astonishment at the growth of these cities. He said that he did not know of any highway of similar length in the United States that would compare with the Oil Belt Highway between Ranger and Cisco over which he motored.

Senator Shepparo passed the morning in an inspection of the million dollar Cisco dam. He evinced interest in the proposal of Eastland county citizens for the formation of an irrigation association with the purpose of utilizing the surplus of water in the dam over that required for domestic consumption in Cisco for irrigation, and with the expectation of Federal aid. Senator Sheppard is the ranking Democratic member of the Senate Committee on Reclamation and Irrigation, and should a Democratic President be elected he would become its chairman. This advantage he has gained because of his long service in the Senate. For although he is among the younger men in the Senate he is accounted in the point of seniority a ranking member of the body.

Irrigation and reclamation are governmental policies in which he is particularly interested and about which much of his senatorial activity has centered. As he suggested in his address he believes that these engineering possibilities offer an outlet for American labor and industry which was removed in the gradual disappearance of the American frontier during the railroad age which he listed today as one of the outgrowths of the epoch-making discovery of the steam engine.

"The present crop season will see the most serious congestion in railroad traffic we have yet seen," he said.

"There are three and one-half middlemen to every farm and the conditions on the farm have forced farmers to the city, and of those remaining on the farms at least three-fifths of them have been reduced to the status of the tenant and hired hand.

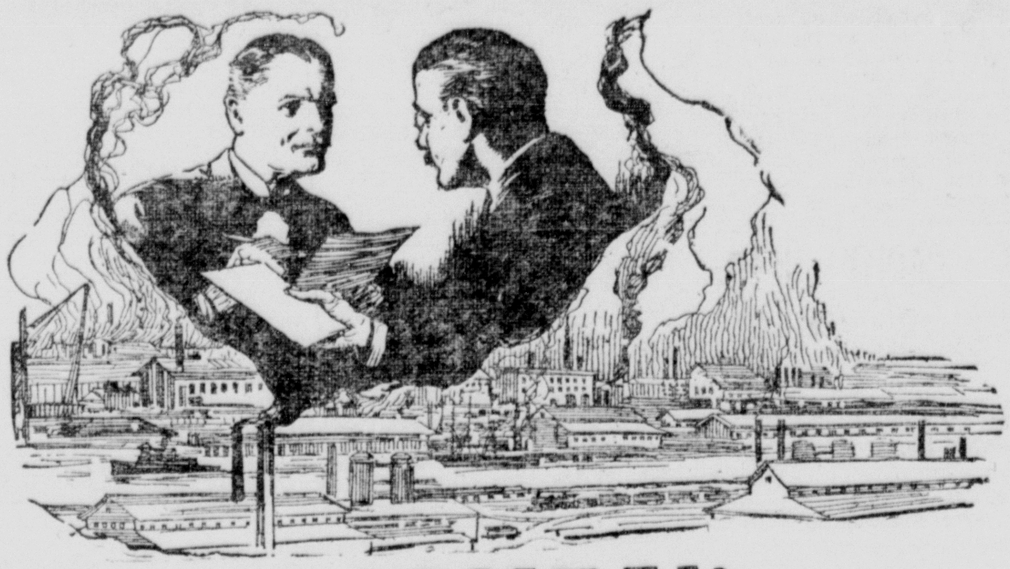
"Public utility control has captured all of the facilities of enlightenment and they have such a monopoly that every man, woman and child that exists must pay his or her toll to the great fortunes that are invested in these utilities.

"Of the 24,000,000 familes in the United States, 13,000,000 are without homes, approrimately 4,000,000 mave mortgages on their homes, while only 6,000,00 own their homes. Two per cent of the people through money power control 60 per cent of the national output. Sixty-five thousand Americans own and control only 35 per cent of all the national wealth. The average cash income of the farmer is $600 per year, while the wage earner, on an average, receives but $1,100.

"We are jazz drunk, movie struck, speed crazy and money mad," he said. "Every golden thing is loved except the Golden Rule.

"These conditions are a result of the concentration and centralization of wealth and industry, and this centripetal industrial movement must be undone by a centrifugal counter movement.

Mayor J. M. Williamson presided Dr. Gregory, in opening the meeting, praised Senator Sheppard as "one of the greatest and best-known American statesmen." He was introduced by Judge Earl Conner of Eastland. He was the guest of Judge L. H. McCrea.



MONEY!

The Power Behind the Wheels of Industry

There are four things essential to industry and thus to all modern life—hand, labor, money and management. A factory or a farm must have all four.

Modern business requires so much money that no one group of people can supply it. All the money in all the banks is needed and used.

You not only benefit directly by having money in this Bank, but you help move the wheels of industry and promote prosperity

Adjutant General Barton Candidate for Governor

General Barton is a native son of Texas and a veteran of three wars. He fought in the Spanish-American, the Philipine and the World war. In the latter he was a gallant officer in the 36th Division and commanded a batallion on the Champaign front and led it through the St Etienne offensive until the order to cease firing when the Armistice was announced.

He has served with distinguished ability as Adjutant General of the State since the occupancy of the gubernatorial chair by Mr. Neff. His record for law enforcement is without a parallel in the history of the Adjutant General's office.

He is a splendid citizen, a gallant soldier, whose valor on the field of action has won for him the plaudit of four Nations. A plain, honorable gentleman, devoted to the iofty ideals of his country, and would make Texas an admirable Chief executive.

TWENTY-EIGHT YEARS AGO

(From the files of the Herald)

Cameron is well fixed now for fire protection.

Building in Cameron is ahead of the supply of brick.

The postoffice will be removed from the present quarters to the Yoe block.

Last Monday was Labor Day and our banks closed, it being a legal holiday.

The county road grader has been traced up and in now on hand. It was found somewhere out on San Gabriel.

Cameron will soon have splendid streets now all the way through. Two prominent streets are now being graded.

A regular telegraph office will be opened in a few days up town in the C. H. Yoe iron front row. This will be a great convenience to our people.

Burns Bever is now located with building on Belton street where his stock of furniture in the McCord will be pleased to meet his friends.

Don't forget the Herald when you have the cash on hand. We need all that is due us, and the time of year for settlements is here. Subscriptions ought to be paid promptly every year.

A. J. Winders, an old and highly respected citizen of our county, who has for years resided near McCown bridge, died last Monday with congestion.

The voters of Beat 7 will express themselves on the prohibition question next Saturday and reports from that section indicate much interest. The beat is composed of the voting boxes of Yarrellton and Ben Arnold.

Messrs. H. L. Atkinson and Jewel Barmore passed through Cameron Thursday on their way to Austin College, Sherman, Texas to enter school.

Misses Kittie Newton, Ethel Mayes and Hattie Williams were in our city yesterday from Maysfield, being en route to Austin where they will enter Stuart Seminary for the ensuing year. Thus Maysfield sends five students this year to first class educational institutions which speaks well for that little village.

Mr. B. L. Harrel of Jones Prairie was in Cameron last Monday and ordered this democratic journal sent to his address.

Prof. F. J. Clement of Davilla paid Cameron a visit this week.

Mr. John B. McLane and family returned yesterday from Rogers, Ark. They had a pleasant visit and are much improved in health.

Hon. T. S. Henderson paid Austin a visit this week on business connected with the University.

The staement of Texas banks on the call issued by the comptroller of currency for July 11, shows a very healthy condition. It is stated that as a business barometer, it is quite flattering. The combined capital stock shows to be $21,439,160 and the individual deposits are $31,360,100. The average reserve held is 32.12 per cent while the loans and discounts aggregate $42,401,199. The national bank notes outstanding amount to only $4,547,765 and the bonds held to secure this circulation are in the sum of $5,210,850.

The farm and Ranch invites notice to the fact that: In all ages and in every land, the best men have been farmers: Noah, Abraham, righteous Lot, Jacob, Fasu, Gideon, Saul, David and Elisha were farmers and stock raisers, Cato, Lucullus, Cincinattus, and Varro plowed oxen, naked from the waist up. Washington, Jefferson, Jackson, Coke, Reagan and Ross were and are farmers. These, with a host of others have tilled the soil and fed the cattle, and were proud of their vocation. And we are proud of them.

COMMERCIAL CLUB TO HOLD ANNUAL MEETING.

The Commercial Club is making plan for the semi-annual meeting of the club in September at which time officers for the next term will be elected.

The entertainment committee W. G. Gillis, chairman; J. C. Tuker, Monta Thomas, A. J. Lewis and C. W. Read, will make the plans for the meeting.

T. S. Henderson, C. W. Lawrence and James Baskin were in San Antonio last week as representatives of the club at the flood control meeting.

Report was made to the club by Mr. Lawrence. He stressed the importance of the soil survey to be made in this county in the near future as a result of the activities of the Cameron Commercial Club.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of Chas. H. Fletcher on the wrapper all these years just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

FARM PRODUCETS ALL TEXAS TO BE ON EXHIBITION

Texas Cotton Palace Exposition, At Waco, Oct. 20 to Nov. 4, to Feature Agriculture

Waco, Texas.—The agricultural department of the 1923 Cotton Palace will be par excellence, according to Chairman Forrest Goodman, who is managing this part of the biggest exposition the southwest has yet known. The sectional exhibits promise to be even larger, better, and more varied than ever before, and North, East, West, and South Texas will all be represented, according to present expectations, and preparations now going on for the big exposition, the dates of which are October 20 to November 4.

These exhibits gotten up by the four sections of the state, are worth traveling miles to see, as the friendly spirit of competition and rivalry between the sections as to which will bring the winning exhibit to the Cotton Palace causes the devotion of a great deal of time and labor by all farmers and towns in each section, resulting in concrete examples of the best products of the soil produced in the best and largest agricultural state in the Union. And the work expended by the winner is rewarded with a $1000 prize,—enough to spur the exhibitors on to make their showing the best. Come to the 1923 Cotton Palace Exposition to see an Agricultural Show displaying the every product raised in this, the greatest of states, where all fruits of the soil are grown to perfection, — an exhibit in which the entire agricultural products of the great southwest are centered, and a place where everyone interested in farming can obtain information upon the culture, care and harvest of all produce raised in the southwest.

AUTOMOBILE RACES AT COTTON PALACE

Fastest Dirt Track Drivers in the World Will Try for Valuable Purses at Waco

Waco, Texas.—Auto races at the 1923 Cotton Palace! It is at an automobile race in which real champion racers and drivers are entered, such as those are to be this fall at the big exposition in Waco, that one has the opportunity to get a real thrill, to see real speed. And the motor races this year promise to be equally as thrilling as any of the famous dirt track classics held on the Cotton Palace oval in past years. The purses offered this year to the winners in the various contests are unusually large and tempting, having already caused several of the country's foremost speed demons to sign up on the entry card.

It will be remembered that it was at the 1922 Cotton Palace that the famous racer, the "Winconsin Special" was entered, and took off first prize. Since the widely heralded feat of this narrow one-man racer, with no crank or starter, no brake, absolutely nothing but a steering wheel with which to guide the long, slender, beauty of the racing world, this "Wisconsin Special" attracted such widespread attention at the 1922 Cotton Palace last fall that the foremost racing drivers of the world have taken up the narrow type car, which has to be pushed off to start its motor running, and allowed to run down the throttle is pushed off before it can be stopped. The world's championship race at the famed Indianapolis speedway was won this year in this type of car for the first time in the history of motordom. And it was at the International Exposition of the Cotton Palace in 1922 that the one-man racer first attained prominence. Automobile races by some of the foremost drivers in the best racing cars of the country is the drawing card for this year's Cotton Palace at Waco.

Waco, Texas.—Low rates will be in effect on all Texas railroads for the Texas Cotton Palace Exposition at Waco, Oct. 20 to Nov. 4. Tickets can be bought from any point in the state at greatly reduced rates.

BAPTIST MINISTER AND NATIONAL KLAN LECURER BELIEVED FOULLY MURDERED

(Contnued from one)

Word received from Sinton tells of threats against him from time to time because of his activities. Relatives fear that he was followed to San Antonio and killed.

Police, aided by state rangers stationed here, are searching the city in an effort to either locate Renfro or find his body. Police officials express the belief that he has met with foul play.

LEFT SINTON AUGUST 19.

Corpus Christi, Sept. 5.—Belief exists among local members of the Ku Klux Klan and friends of Rev. J. T. Renfro, that the Sinton pastor has been slain. Local friends of Renfro declared that they have gone into the matter of the minister's disappearance thoroughly and can not find any reason why he should be missing if he has not met with foul play.

Rev. Mr. Renfro was national lecturer for the Ku Klux Klan and during his addresses in South Texas, it is pointed out here, he has made many enemies.

A statement was made here this morning by L. M. Hurlbirt, treasurer of the Fred Roberts Memorial Hospital Trust Fund, that a check up of subscriptions to the campaign show the money and notes received to be intact. It was said that the money and notes which have been received for the hospital drive totaled about $70,000.

Rev. Mr. Renfro preached at Sinton on Sunday, August 19, and left the next day for Waco, by way of San Antonio. He was scheduled to make a speech on August 22 at Waco, and this appointment was never kept.

Mr. Renfro's wife and two small children, who have been visiting Mrs. Renfro's parents in Alabama, have been notified and are on their way to Sinton.

Rev. Renfro was making the trip to Waco in his Ford coupe, which has not been found.

Don't forget to read Klawansky's Fall Opening ad in this issue.

Tom Sampson, Jr., of Waco is here this week visiting his grandfather, T. G. Sampson.

Mrs. John Burt and children who have been summer guests of Mrs. Burt's parents, Mr. and Mrs. John B. McLane, left Wednesday for their home in Aransas Pass.

Leonard Sparks Mewhinney, son of Post Master and Mrs. Sam Mewhinney of Buckholts, honor graduate of the 1923 class, Yoe High school, was here today visiting friends and former school mates. On account of his excellent record as a high school student, Leonard received the appointment to the United States Naval Academy at Annapolis. He expects to leave about the 20th for that point. He is a member of an old Milam county family and his friends will watch his career with interest and they feel sure he will make the best of this splendid opportunity.

Billie Clark, formerly with the Owens Filling Station, is now connected with the Schiller Drug Store where he has taken up the study of pharmacy under his father, W. I. Clark.

THE FLAVOR LASTS

METHODIST CHURCH.

Next Sunday will be a big day at the Methodist church. The services at eleven o'clock will have for its purpose the 'honoring of the children.' The pastor will preach on the subject: "The Cradle of the Kingdon." Some features of this service will be a brief number rendered by each of the two younger departments of the Sunday school—the Beginners and Primary. Another feature will be the calling of the "Honor Roll." It consists of 62 babies on the Cradle Roll of the Sunday school. The parents of these children are being invited to the service and the babies will be cared for on the ground floor of the church by Miss Mollie Moore while the mothers worship.

At the evening service of the church Rev. C. T. Tally, presiding elder of the district will preach. This will perhaps be the last time he will preach during the year and since this is his last year on the district, it may be the last time he will preach in Cameron for a long while. This service will begin at 7:30 in place of 8 o'clock as heretofore.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

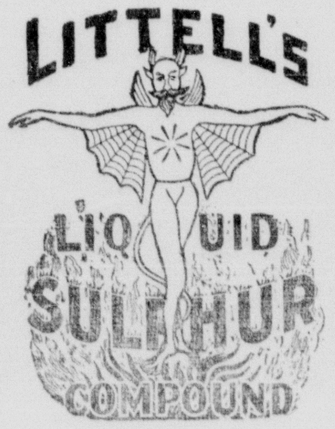
In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night, your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

TRADE REGISTERED MARK

LITTELL'S



LIQUID SULPHUR COMPOUND

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA —the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

West Texas Farm and Ranch Lands

If anyone wants farm or ranch lands in West Texas in Lappan Flat write me. I have ranches, farms and stock farms for sale. Address

Joe N. Luce
Miles, Texas.

SPUR FARM LANDS

(Northwest Texas.)

Many farmers are making a hard or doubtful living on high priced lands in localities cursed with insect pests, or floods, or drouth, or other enemies to successful farming. The end of each year finds time and energy practically wasted—no progress made. Spur Farm Lands offer relief from these conditions. Any good farmer can pay for these lands from the products thereof. Of the nearly one-quarter of a million acres of this large Ranch, which have been sold, 81.61 per cent has been paid in full. The balance of these Spur Farm Lands, some of which have never been placed on the market before, offer productive, easily cultivated land, at low prices and on easy terms. Splendid crops are raised without irrigation. No boll weevil ever known here. Altitude 2,000 to 2,600 feet.

Considering the reliable production of these lands—prices are as low as anywhere in Texas. According to the 1920 census, Dickens county made the largest gain in increse in number of farms for the previous decade of any county in the State of Texas below the Cap Rock. Splendid climate; no malaria, chills, or fever; good churches; excellent schools. Dickens county has the best gravel roads of any county in Northwest Texas; some of them built under State and Federal superivision. We offer the homeseeker a wide range for selection, and are selling direct—no commission to anyone; the purchaser receives full value in dealing direct with the owner as opposed to paying a middle man several dollars per acre.

We also offer STOCK FARMS AND SMALL TRACTS, perfectly adapted to this purpose at reasonable prices and terms.

Free illustrated booklet, giving all particulars, on application to

LETTER BRINGS MEMORY OF STRUGGLING YOUTH

JUDGE ED. F. ENGLISH RECALLS YOUNG MAN WHO LIVED IN CAMERON.

Echoes from other days steal to our memory in hours of retrospection and along life's way they seem to brighten and to cheer. Sometimes these moments are memory's own and sometimes they come in chance meeting of old friends and associates but nevertheless they come.

Last week Judge Ed. F. English of Cameron received a letter which is here reproduced from one who many years ago he knew as a struggling youth in Cameron. The letter has brought back to Judge English whose hair is now white with the snows of many winters, fond recollection of another day.

Harry Hampton Williams now with the Express in San Antonio was reared in this county and the letter brings to Judge English a pleasant recollection of him as a youth who had dreams of a career at writing and who in his teens wrote and published a book of poems.

The letter follows:

Judge Ed. F. English,
Cameron, Texas.

Dear Judeg:

I am sitting down to give myself the pleasure of writing to you once more, and it is a pleasure I have been promising myself for many moons I am a hard-working member of the staff of the above paper, and after writing all day, more or less, for a living, I rarely ever feel like writing to an old friend. I inquire concerning you every time I see any of the Cameron folks, until yesterday I failed to do so when I saw Tom Henderson for a few moments.. And since I come to think of it, I have not seen any one from Cameron in a long time previously.

I have a fine job on the Express—fine in every way except money. Still, it is a living and I reckon I should be glad I have that. I am the livestock man of the paper, and in that capacity they sent me to the cattlemen's convention in Fort Worth a year ago, to El Paso this past spring to San Angelo last summer, 1922, and to Sanderson in February. The last two were sheep and goat men's conventons. Also, this spring I made a trip with Governor Neff to Sanderson, Marfa, Fort Davis, Alpine and Fort Stockton.

In this town I am press representative with the Rotary club and Lions club. Been with them two and one half years and have the rating of a regular member to all intents and purposes. At one time or another have eaten with every luncheon club in the city, and have the "ongtray" of all of them.

I have a column called "Cattle Clatter" which daily for two and one-half years I have filled up with a lot of half-humorous, half-fact stories which have made a great hit with the cattlemen and the general reading public, that is if I am to be permitted to judge from what I am constantly told. People seek me out quite a lot to compliment me. If I can pick up a sample or two portraying fairly well the manner in which I write, I will enclose it.

It seems that the "end of the Ranbow" will elude me to the end, and thus I will never have anything with which to reimburse my friends for their great kindnesses except my grateful affection and esteem. And realizing how seldom I get to see you in person, I am writing this. However, as I am still on the sunny side running stronger than ever in my life, and truer to good form, I have not given up hopes of batting off a home run some day.

I wish you would come over to this fine city—old, yet new in every essential element of life, and hang around and visit a few days. The friendliest town in the world. The old timers here welcome the new man with cordiality, and, in fact, the town is nearly run by new comers.

Cameron has a mayor that once worked as a reporter in this very room, later on becoming city editor. Sometimes I envy him the privilege of being with my old friends all the time while I am denied it. I know him pretty well.

Wish you'd be kind enough to drop me a few lines. Would love to have them right away.

Sincerely and affectionately yours,
HARRY HAMPTON WILLIAMS.

OREGON SCHOOL LAW IN THE COURTS.

Washington, Sept. 6.—National Capital educators are intensely interested in the legal test to be made of the Oregon school law. Suit for a test of the constiutionality of the bill, which became law at the general election last November, has been filed in United States District Court by a Catholic Society.

Adopted after a bitter fight in the last Oregon election this law makes it compulsory for all children below high school age to attend the public schools. It has been generally regarded as an effort to drive private schools out of business, and Catholics have looked upon it as aimed especially at their institutions.

Proponents of the law, which included a heavy majority of the citizens of Oregon, maintain that as the instiutions of a state are the product of, and live or die by the charaster of its citizens, the state has a right to say how and by whom its future citizens are to be trained. Opponents of the law see in it an invasion of the rights of the individual to train his child as he pleases.

It is noted that the law does not, as has been claimed, drive out the private school, since private instruction is permitted children who are taught the same subiects for the same period of time, as are taught in the public schools.

The test of the constitutionality of the law has been looked for ever since its enactment, and the results of the court action will be most carefully considered by educators and legislators in other states, who are only awaiting a definite pronouncement on the Oregon law before imitating similar legislation in their own jurisdictions.

DEMOCRATS LEAD IN PIQUA, OHIO, FIRST TIME IN 12 YEARS.

Piqua , Ohio, furnshes another straw to show the wind blowing in the Democratic direction. At the city primaries just held the Democrats cast more voes than the Republicans, which is the first time this has happended in twelve years. It is another repetition of what has been taking place ever since the Republican party under reactionary leadership came into control of national affairs in 1921. The people seem to realize that only through a repudiation of reactionary Republicanism can the present deplorable situation be overcome.

TAXATION IN 1921-22.

Taxes collected by the Federal Government during the fiscal year 1921-22 totaled $4,903,000,000 and exceeded by $1,317,000,000 the aggregate of taxes paid to all the States municipalities and local governments of all kinds.

The amount paid by the American people in taxes of all kinds in 1921-22 represent 14.3 per cent of the national income of $59,300,000,000. In 1913, when the national income was but $34,800,000,000, taxation absorbed only about 6 1-2 cents of each dollar. The charge for taxes has more than doubled in the last eight years.

Agricultural lands have been taxed proportionately more heavily than any other form of wealth or property. Taxation of farm lands has increased an average of 125 per cent since 1914, and coupled with this rise in taxes there has been in the last two years a decrease of about $9,500,000,000 in the annual value of agricultural products in the farmers' hands.

WE ARE ALWAYS GLAD TO SERVE YOU.

A. J. Matocha & Company

Santa Fe Depot. Cameron, Texas.

Dear Mr. People:

Did you hear about that fellow who thought that Sodom and Gomorra were man and wife and that the epistles were the wives of the apostles.

There are a lot of ignorant people in this world—no use talking.

BUT THE MOST FORGETFUL MAN is the fellow that forgets to send in his subscription to the

Cameron Herald

He's like the fellow who forgot that he was married. He actually used to take his hat off while talking to his wife on the street—actually treated her as if she was a lady.

On September First the subscription rate of the Herald was increased from $1 per year to

$1.50 Per Year

Economic facts dictate this increase The Dallas News recently increased the price of the Sunday paper from 5c to 10c. Why? Because it's worth more and a greater charge must be made for it.

Get on our list today. Next year is campaign year. Things will be booming over the county. The Herald is going to be active in heralding political news.

HIGHWAY DEPARTMENT TO TAKE OVER ROADS

ON JANUARY 1 HIGHWAYS TO GO UNDER STATE MAINTENANCE.

"The failure to publish in time the proposed Constiutional Amendment, will in no way effect the funds of the State Highway Department for the next three years, it will not interfere with our present program of highway construction of maintenance, and all unexpired Federal appropriations including those for 1924 and 1925 will not be endangered. The Highway Commission will carry out its plans, and the will of the Legislature in maintaining all state highways, and we will carry on the construction as rapidly as possible. We will continue in the future, as we have in the past, to co-operate with the various counties of the State in the construction of a State system of highways.

"There is no need of undue alarm at this time on account of our failure to secure the proposed amendment to the Constitution, for fear we will lose Federal Aid. The main idea the proponents of the Amendment had in mind in urging the Amendment at this time was to comply with the provisions of the Federal Aid Act as early as possible, so that Texas might continue to receive the hearty co-operation of the Federal Government, and in order that we would have ample time to make the necessary adjustments in our statutes. The amended Federal Aid Act gives us until November 9, 1926 to comply with the provisions of the Act, requiring the State to provide State Funds for the construction and maintenance of Federal Aid roads, such fnuds to be under the direct control of the State, provided, however, that we carry out the provisions of this Act as nearly as our existing Constitution and laws will permit.

"The recent Legislature directed the State Highway Department to take over the maintenance of all state highways, and provided funds therefor. It is the intention of the State Highway Commission to carry out these directions to the fullest extent. We are making our plans to take over the maintenance of all roads in the state highway system January 1, 1924 and unless something of a more far reaching effect than the failure of the Constitutional Amendment takes place, we will carry out these plans.

"The State Highway Commission will continue to co-operate with the various counties of the State in the construction of the State Highways. We will continue to aid them in the future as we have in the past, but on a larger scale, due to the fact that the 38th Legislature provided additional funds for this purpose. These increased funds will be used to good advantage by increasing the allotments to those progressive counties that have provided county funds for the purpose of constructing more durable roads. This will be a distinct advantage to these counties. A connected state system is only delayed. In this connection we would like to state that the Legislature in submitting the proposed amendment, and the Texas Highway Association, and the Texas Highway Commission in advocating it, had not the remotest idea of proposing at this time an increase to the tax burdens of our State.

R. M. HUBBARD.

WHO BUTTERS YOUR BREAD?

A reliable Texas creamery manager is authority for the statement that Texans buy annually 5,000,000 pounds of butter from oustide states. "Who Butters Your Bread?" will be an astounding story of neglected dairy opportunities in Texas, which will be published in the Magazine Section of the Herald September 13. The story is impressive and will furnish food for thought that should take deep root in the hearts of all Texans.

Renew your subscription to the Herald and don't miss any number of the monthly Magazine Section.

NOTICE OF ROAD BOND ELECTION.

THE STATE OF TEXAS
County of Milam

On this the 16th day of August A. D. 1923 the Commissioners Court of Milam County, Texas, convened in regular session at the regular meeting place thereof in the court house at Cameron, Texas, all members of the Court, to-wit: Jeff T. Kemp, County Judge, Henry Reeves, Commissioner Precinct No. 1, N. H. Butts, Commissioner Precinct No. 2, R. A. Hairston, Commissioner Precinct No. 3, H. H. Moore, Commissioner Precinct No. 4, being present, came on to be considered the petition of H. L. Heath and 102 other persons praying that bonds be issued by Road District No. 2 of Milam county, Texas, in the sum of One Hundred Thousand Dollars ($100,000.00) bearing five and half (5½) per cent rate of interest maturing at such times as may be fixed by the Commissioners Court serially or otherwise, not to exceed thirty (30) years from date thereof, for the purpose of constructing, maintaining and operating macademized, graveled or paved roads or turn pikes or in aid thereof, and whether a tax shall be levied upon the property of said Road District No. 2, of Milam county, Texas, subject to taxation for the purpose of paying the interest on said bonds, and to provide a sinking fund for the redemption thereof at maturity; and

It appearing to the court that said petition is signed by more than fifty (50) of the resident porperty tax paying voters of said Road District No. 2, of Milam county, Texas; and

It further appearing that the amount of bond to be issued will not exceed one fourth of the assessed valuation of the real property of said Road District No. 2 of Milam county, Texas; and

It further appearing that said Road District No. 2, of Milam county, Texas, has been duly established by an order of the Commissioners Court of Milam county, dated the 27th day of July 1911, of record in Book 5, Page 49 of the Minutes of said Court, and the boundaries thereof are herein described as described and defined in the order of the Commissioners' Court, establishing such District, as follows, to-wit:

BEGINNING at the mouth of Elm Creek where the same empties into Little River; Thence up said Creek to a point opposite the west line of the James Hall League; Thence S. 19 W. with the West line of said James Hall League to Little River; Thence down said Little River to the mouth of San Gabriel River; Thence up said San Gabriel River to the N. E. corner of the T. J. Chambers League; Thence with the East line of the said T. J. Chambers League S 19 E. to the north line of the Bethlehem voting precinct at the Mrs. Edward's place; Thence in an easterly direction with the north line of the Bethlehem voting precinct, to the N. E. corner of said voting precinct in the North line of the Sandy Creek voting precinct; Thence in an easterly direction with the N. line of Sandy Creek voting precinct to the West line of Justice Precinct No. 3, at the old residence of George Penny; Thence in a northerly direction with the West line of Justice Precinct No. 3, along present Cameron and Caldwell Road to McCown bridge on Little River; Thence down said River to Elm Creek the place of beginning; and

It further appearing that said District does not embrace any part of a political subdivision or defined Road District that has been heretofore established, and has issued bonds which are now outstanding and unpaid;

IT IS THEREFORE CONSIDERED AND ORDERED by the Court that an election be held in said Road District No. 2 of Milam county, Texas, on the 25th day of September A. D. 1923, which is not less than thirty days from the date of this order, to determine whether or not the bonds of said Road District No. 2 of Milam county, Texas, shall be issued in the amount of One Hundred Thousand Dollars ($100,000.00) bearing five and half per cent (5½) rate of interest and maturing at such times as may be fixed by the Commissioners Court, serially or otherwise, not to exceed thirty years from the date thereof; and whether or not a tax shall be levied upon the property of said Road District No. 2, of Milam county, Texas, subject to taxation for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity.

The said election shall be held under the provisions of Arts 627 to 641 inclusive of Chapter 2, Title 18 Revised Statutes 1911 as amended by Sec. 1, Chapter 203, Acts of 1917, Regular Session.

All persons who are legally qualified voters of this State and of this County and who are resident property tax payers in said Road District No. 2 of Milam county, Texas, shall be entitled to vote at said election and all voters desiring to support the proposition to issue the bonds shall have wirtten or printed on their ballot the words:

"For issuance of bonds and the levying of the tax in payment thereof."

And those opposed shall have written or printed on their ballots the words:

"Against the issuance of bonds and the levying of the tax in payment thereof."

The polling places and presiding officers of said election shall be, respectively, as follows:

At Cameron, with Geo. T. Graves as presiding officer.

At Curry, with G. A . Durni, as presiding officer.

At Salem, with J. D. Nesbitt, as presiding officer.

At Elm Ridge, with J. C. Brashear as presiding officer.

At Ad Hall, with T. S. Donaldson, as presiding officer.

At Minerva with J. C. Wallace, as presiding officer.

At Rice School House, with Sam Nicholson, as presiding officer.

The manner of holding said election shall be governed by the general laws of the State of Texas regulating general elections when not in conflict with the provisions of the Statutes hereinabove referred to.

Notice of said election shall be given by publication of a copy of this order in the Cameron Herald, a newspaper, published in said Road District No. 2, of Milam county, Texas, for four successive weeks before the date of said election. And in addition thereto there shall be posted other copies of this order at three public places in said Road District No. 2, of Milam county, Texas, for three weeks prior to said election.

The County Judge is hereby directed to cause said notice to be published and posted as hereinabove directed, and further orders are reserved until the returns of said election are made by the duly authorized election officers and received by this Court

A true copy I certify.

16-4t JEFF T. KEMP,
County Judge, Milam County, Texas.

Avoid Loose Thinking
Get Your Facts From Nelson's

Clear vision comes from clear thinking and clear thinking can come only from accurate knowledge and dependable information. Vague and inaccurate information is worse than none at all. Clear thinking based upon dependable facts marks the successful man—the man of decision and action. Nelson's Loose-Leaf Encyclopaedia is a camplete Reference Library, accurate, concise, authorative. It covers the whole field of knowledge from the dawn of civilization to the present day. Fifteen minutes a day with Nelson's will enable you to think clearly, to decide promptly, to be a leader among men.

The World's Greatest Educator

Nelson's

Perpetual Loose-Leaf
ENCYCLOPAEDIA
& Research Bureau for Special Information

ALWAYS DOWN TO DATE

Every subject on which man would be informed is changing constantly. Nine times out of ten, the information you want is of current issue—a topic of today. All Encyclopaedias except Nelson's are deficient in this important and essential thing. The information which is obsolete does more harm than good. You do not use a City Directory that is two years old. Why use an Encyclopaedia that is five or ten years old?

ALWAYS NEW—Every 6 months all subscribers to NELSON'S receive their renewal pages—250 pages or more—between 500 and 700 pages each year. These include over 2,000 changes each year and keeps NELSON'S perpetually accurate and down to date.

FREE EDUCATIONAL READING COURSES

Nelson's Reading and study courses in UNITED STATES HISTORY, BUSINESS ECONOMICS, NATURE STUDY, AGRICULTURE AND HOME ECOMIMICS are declared by educational authorities to be equal to a college course and training in each of these departments.

NELSON'S FREE RESEARCH BUREAU.

FOR SCIENTIFIC REPORTS AND SPECIAL INFORMATION AND CORRESPONDENCE. Every purchaser of Nelson's is entitled to free membership in this Bureau. If at any time you are at doubt on any subject, old or new, write to this Bureau with the positive assurance that you will promptly receive the latest obtainable and most dependable information.

THIS WONDERFUL ENCYCLOPAEDIA.

brings to you the knowledge of the centuries. It stands ready to answer any conceivable question in Aeronautics, Agriculture, Astronomy, Biography, Biology, Botany, Chemistry, Education, Electricity, Engineering, Mechanics and Machinery, Geology and Geography, History, Law, Mathematics, Medicine and Surgery, Military and Naval Science, Music, Literature and the Fine Arts, Political Science, Sociology and Economics, Religion, Sports, Technology and Manufacturers.

Nelson's treats upwards of 1,000,000 topics, has more than 500 maps, including new (1923) Maps of Europe, Africa, Arabia, Jugo-Slavia, Germany, France Belgium, etc., etc., and 7,000 illustrations to clarify the text, including text cuts, colored plates, photographs, charts, etc.

GEORGE B. TERRELL IS WILLING TO MAKE RACE

COMMISSIONER WILLING TO RUN FOR GOVERNOR IF EXPENSE IS PAID.

Austin, Texas, Sept. 1.—George B. Terrell, Commissioner of Agriculture, gave out the following statement Saturday:

"For some time my name has been mentioned through the press as a probable candidate for Governor. I have not given the matter serious thought, until letters from all parts of the State urging me to become a candidate made it necessary for me to consider them, and to make some public statement as to my future course.

"I am convinced that we must have a change in the governmental policy of this State, as the people are almost bankrupt. We must have:

"(1) A reduction in the running expenses of the government, and a corresponding reduction in taxes. This can be secured by abolishing all useless boards and commissions, and transferring any useful work they are doing to existing elective departments of government, and by vetoing all laws establishing new institutions, departments, or offices.

"(2) By separating the sources of taxation for State and County purposes, and collecting the State tax from incomes, inheritances, production taxes on natural resources, and taxes on public service corporation as many other States are doing. This would leave the counties free to fix their own rates and values for local purposes and relieve the homes, business houses, and livestock interests of about $10,000,000 State taxes they are now paying. This would solve the tax question.

"(3) The penitentiary system can and should be placed on a paying basis, by working enough convicts on the farms to make all the food the system can use and working enough convicts in factories to make the shoes and clothing for the system, and work the remainder on the public roads.

"(4) The pay-as-you-go- policy should be adopted, and the State placed upon a cash basis and kept that way. I know that about $5,000,000 of the present appropriations could be saved, that would put the State on a cash basis and hurt nobody, except the fellows cut loose from the payroll.

"(5) A Legislature should be elected pledged to this policy.

"The Governor should be honest and possess a thorough knowledge of the needs of the institutions and departments of government, and he should have backbone enough not to be bulldozed or buncoed by propagandists who either want to connect up with the payroll, or keep their property disconnected from the tax-rolls. They have succeeded admirably in both undertakings and have been the primary cause of our present financial predicament.

"If I had the privilege of being Governor for two years and had a Legislature in accord with my views, this class of cattle would be scarce at the State Capital, as they would have to hunt greener pastures.

"I am not financially able to make the race for Governor, as it usually costs from $15,000 to $20,000 to make the race. No man should be allowed to spend that much money to buy the office of Governor. If he "buys his way in," he might "sell out" after he gets in.

"The people who want honest, faithful service in the Governor's office should finance the campaign. This is the only condition upon which I would consider making the race."

YOUNG FRIENDS, LISTEN.

The training received in College will measure your business success. Therefore it behoves you to think carefully and choose wisely the College in which you are to receive your training. The College that has stood as a leader in education men and women for big business for more than twenty years, a College with an international reputation students from thirty-inie states and seven foreign countries, more than 3000 enrollments annually for the last five years, with successful business men at the head of it, is the one for you to attend.

HUMPHREYS SELLS FOR $30,000,000

Denver, Colo., Sept. 1.—Completion of the sale of the stock of the Humphreys Oil Company to the Indianola Oil Company, a subsidiary of the Pure Oil Company, was announced by A. E. Humphreys, Jr., treasurer of the company, Saturday.

The transaction involves the payment of $22,500,00, for 450,000 of the 600,000 shares outstanding, at the rate of $20 per share September 15, and $6 per share every two months for 10 months, making to total of $50 per share, with 7 per cent interest on deferred payments.

The holdings of the Humphreys Company by the Humphreys Petroleum Company are also to be conveyed to the Indianola at the rate of $96.65 for the Humphreys Petroleum shares, covering 76,069 shares. The other assets of Humphreys Petroleum are not to be conveyed, however.

A new corporation will be formed and its stock distributed as dividend to Humphreys Petroleum shareholders, and the new company will hold the other assets, including some production and leases.

The Herald, $1.00 the year.

OUT OF THE GLOOM.

Many a Gloomy Countenance in Cameron Now Lightens with Happiness.

A bad back makes you gloomy.
Can't be happy with continual backache.
The aches and pains of a bad back
Are frequently due to weak kidneys.
Doan's Kidney Pills are recommended for weak kidneys.
So Cameron citizens testify.
Ask your neighbor.

S. E. Pitts, merchant, Nolan Ave., Cameron, says: "My kidneys were giving me a lot of trouble. My back seemed to ache all the time and the muscles were sore and lame. I was sore across my kidneys and felt played out. I picked up a paper and read about Doan's Kidney Pills and began taking them. After using about two boxes of Doan's, all those disagreeable conditions left. I advise any one who has kidney complaint to try Doan's."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Pitts had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (H)

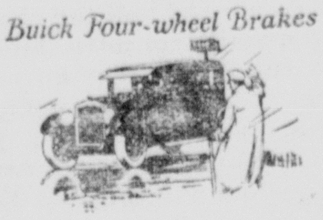
Reduce the Skidding Danger!

Buick Four-wheel Brakes



BUICK four-wheel brakes reduce to a minimum the skidding danger every driver encounters on wet pavements.

The action of the simple yet positive Buick brakes not only slows down the car safely but keeps it steady, preventing skidding to either side.

Buick four-wheel brakes operate with slight pressure on the service brake pedal, are of the Buick-proved external contracting type and function independently of the emergency brake.

Buick has taken this advanced step of designing four-wheel brakes on its 1924 cars in conformance with its well-known policy of providing owners with the safest and most dependable transportation.

We will be pleased to give you a demonstration and let you prove the effectiveness of Buick four-wheel brakes yourself

Have Kidneys Examined By Your Doctor

Take Salts to Wash Kidneys if Back Pains You or Bladder Bothers

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

HAVE DARK HAIR AND LOOK YOUNG

Don't Stay Gray. Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through the hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color, and looks glossy, soft and beautiful.

FURNITURE

Our fall stock of Furniture is arriving every day, and when you are need of any kind of furniture it will pay you to visit our store. New Fall Goods

W. KLAWANSKY

Autumn 1923

Showing Of New Autumn Apparel and

BIG FALL OPENING

With the coming of Fall the change from summer to autumn season brings to all of us the sharp realization that the business of buying is at hand and the quest of opportunity for advantages in better merchandise, correct styles and right prices now engage your attention.

Not since the World War have merchandising conditions been more stable or opportunities more rare to reap the benefits of orderly manufacture in wearing apparrel. The world has detached its attention from the engaging obligations of after war problems and business has recovered its normal process so that at this as at no other time in nearly a decade goods are being sold at normal prices and are being manufactured at normal rate in attractions as varied as the demand itself. And so in this Great Fall Opening we are able to present to the fullest extent a line of Ladies and Misses wearing apparrel equal to the advantages our buyer found in the New York markets that the friends and customers of this store might be served as always to the best possible limit of our store experience.

New Goods And New Prices---Tremendous Buying Opportunities

Never before in the history of this store have oppor tunities been so great as at this time to save money on early fall purchases. Everything in the Big Fall Opening in Ladies and Misses Ready to Wear is new and the prices governing this opening event are also new because they are normal again. You simply cannot afford to miss this Big Fall Opening for here you will find what you want as our Customers must be pleased.

The New Fall Dresses
